MINUTES OF MEETING OF FISCAL AFFAIRS COMMITTEE NOVEMBER 14, 2016

The Fiscal Affairs Committee met on **November 14, 2016, at 5:00 p.m.**, in the La Porte City Hall Council Chambers, 604 West Fairmont Parkway, La Porte, Texas, to consider the following items of business:

1. Call to Order

Chairman Engelken called the meeting to order at 5:00 p.m. Present was: Committee Member Martin and Alternate Member Kaminski. Also present: City Secretary Patrice Fogarty, City Manager Corby Alexander, Finance Director Michael Dolby, Treasurer Shelley Wolny, and Purchasing Manager Cherell Daeumer.

2. Consider approval or other action regarding minutes of the August 8, 2016, meeting of the Fiscal Affairs Committee – P. Fogarty

Committee Member Martin moved to approve the minutes of the August 8, 2016, meeting. Alternate Member Kaminski seconded. **MOTION PASSED UNANIMOUSLY 3/0.**

Committee Member Leonard arrived at the meeting at 5:03 p.m., and Alternate Member Kaminski left the meeting at 5:03 p.m.

3. Receive and review Fourth Quarter (FY2016) Investment Report – M. Dolby

Treasurer Shelley Wolny presented the Fourth Quarter (FY2016) Investment Report.

4. Receive and review months of June; July and August (FY2016) Purchasing Card Expenditures – M. Dolby

Purchasing Manager Cherell Daeumer provided the months of June, July and August (FY2016) Purchasing Card Expenditures.

5. Receive and review the City of La Porte Investment Policy – S. Wolny

Treasurer Shelley Wolny presented the City of La Porte Investment Policy and informed the report will be presented at the December 12, 2016, City Council meeting.

6. Set date for next meeting – M. Dolby

The Committee set March 13, 2017, at 5:00 p.m., as the date and time for the next meeting.

7. Administrative Reports – C. Alexander

There were no reports.

8. Committee Comments – Matters appearing on agenda; Recognition of community members, city employees, and upcoming events; Inquiry of staff regarding specific factual information or existing policy.

Chairman Engelken questioned the status of the One Solution software. Finance Director Michael Dolby advised the software is still in the conversion stages; weekly meetings with project leaders are being held, and Staff is aware that payroll and accounts receivables are operable but parallel testing has not been done. Chairman Engelken asked how long has the software been going through the testing stage. Mr. Dolby responded two years, and it takes four years for development. Chairman Engelken commented there are serious performance issues and requested the company come to a City Council meeting and provide a report.

Chairman Leonard commented he feels Council is frustrated with the time that has passed without a “Go Live” date.

There being no further business, Committee Member Leonard moved to adjourn the meeting at 5:27 p.m. Committee Member Martin seconded. **MOTION PASSED.**

Respectfully submitted,

Patrice Fogarty, City Secretary

Passed and approved on the ____ day of _____, 2017.

Chairman Chuck Engelken

SUMMARY & RECOMMENDATIONS

In accordance with the city charter, the 2016 audit report will be presented to Council by the external auditors Pattillo, Brown and Hill. The audit report provides the City with reasonable assurance that the financial statements are free of material misstatements. The auditors designed tests that provide evidence that the financial statements conform to the highest level of accounting standards. The City of La Porte received an unqualified (clean) opinion from the auditors and no management comments.

The City of La Porte has won an award for excellence in financial reporting from the Government Finance Officers Association for thirty-five consecutive years.

Action Required by the Fiscal Affairs Committee:

Receive presentation.

INTRODUCTORY SECTION

City of La Porte

Established 1892

City Manager's Office **DRAFT**

The City of La Porte embraces our heritage, community values and opportunities, while enhancing the quality of life for our citizens.

March 14, 2016

To the Honorable Mayor,
Members of City Council, and
Citizens of the City of La Porte, Texas:

The Finance Department and City Manager's Office are pleased to submit the Comprehensive Annual Financial Report for the City of La Porte, Texas for the fiscal year ended September 30, 2016. This report is published to provide the City Council, City staff, our citizens, our bondholders and other interested parties with detailed information concerning the financial condition and activities of the City government. This report consists of management's representations concerning the finances of the City of La Porte. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the City of La Porte's financial statements in conformity with GAAP. The cost of internal controls should not outweigh their benefits; therefore the City of La Porte's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of La Porte's financial statements have been audited by Pattillo, Brown and Hill LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of La Porte for the fiscal year ended September 30, 2016 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amount and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent audit concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of La Porte's financial statements for fiscal year ended September 30, 2016 are fairly presented in conformity with GAAP. The independent auditors' report is presented as a component of the financial section of this report.

The independent audit of the financial statements of the City of La Porte included a federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of La Porte's separately issued Single Audit Report. GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of La Porte's MD&A can be found immediately following the report of the independent auditors.

Profile of the City

The City of La Porte, incorporated in 1892, is located in the southeast quadrant of Harris County and is bounded on the north by the Houston ship channel, on the east by Galveston Bay and the south by the Bayport channel. The City of La Porte currently encompasses 19 square miles and serves a population of 35,148.

The City is a home rule city operating under the Council-Manager form of government. Policymaking and legislative authority are vested in a governing council consisting of the mayor and eight other members. The city council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees and hiring the City Manager, City Secretary and Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City and for appointing the heads of various departments. The Council is elected on a non-partisan basis. The Mayor and Council members serve three-year staggered terms. Six of the council members are elected by district. The Mayor and the two remaining council members are elected at large. The City of La Porte provides a full range of services, including police and fire protection, the construction and maintenance of streets and other infrastructure and recreational activities and cultural events. Certain services are provided through a legally separate Water Authority, which functions, as a blended component unit and in essence, is a department of the City of La Porte, and, therefore, has been included as an integral part of the City of La Porte's financial statements. Additional information on the Water Authority and other blended component units can be found in Note 1B. of the notes to the financial statements. The City has established a Taxing Increment Reinvestment Zone one (the Zone). The zone is presented as a blended component unit and is being reported as a governmental fund type (see Note 1B). The City has also established a section 4 B Sales Tax Corporation (see Note 1B). The City also has established a Fire Control, Prevention and EMS District (see note 1B). The City's accounting records for general governmental operations are maintained on modified accrual basis, with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the City's utilities and other proprietary activities are maintained on the accrual basis.

The annual budget serves as the foundation for the City of La Porte's financial planning and control. Budgetary control has been established at the fund level. All agencies of the City of La Porte are required to submit requests for appropriation to the City Manager on or before May 26 of each year. The City Manager uses these requests as the starting point for developing a proposed budget. The City Manager then presents this proposed budget to council for review prior to August. The council is required to hold a public hearing on the proposed budget and to adopt a final budget by no later than September 30th. The appropriated budget is prepared by fund, function (e.g., public safety) and department (e.g., police). The directors are given latitude to approve transfers of appropriations within a department. Transfers of appropriations between funds, however require the special approval of the city council. Budget-to-actual comparisons are provided in financial reports for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on page 56 as part of the required supplementary information. For governmental funds, other than the general fund, with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 72. Formal budgetary integration is employed as a management control device during the year for the General Fund and Enterprise Funds. Formal budget integration is not employed for the Debt Service and Capital Projects Funds because effective budgetary control is alternatively achieved through bond indenture provisions and legally binding construction contracts, respectively.

Economic Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of La Porte operates.

Local Economy

The City of La Porte is located in the southeast quadrant of Harris County, which is a 1,723 square mile county is a leading oil, gas and petrochemical areas. The County has more than 3,200 manufacturing plants, the nation's largest concentration of petrochemical plants, and the third largest United States seaport and is a corporation management center. A significant part of the County's major employers, manufacturers, education and financial institutions are located in Houston, the County seat. The Texas Medical Center, located in Harris County, is one of the nation's largest, providing medical care and educational opportunities. Higher education facilities include: University of Houston, Rice University, Texas Southern University, St. Thomas University and Houston Baptist University, all offering full four- year as well as postgraduate programs. The Lyndon B. Johnson Space Center is also located here. Located some 20 miles southeast of Houston on Galveston Bay in Harris County are the three communities that make up the La Porte Bayshore Area: La Porte, Morgan's Point and Shoreacres. The area has a combined population of approximately 40,000. Though much of the image of this area is industrial, the La Porte- Bayshore area is still characterized by an expanse of resort homes.

Strategic Plan

- **Overview**

On October 27, 2012, the Mayor, City Council, City Manager and key staff of the City of La Porte met together in a retreat planning session. The purpose of that meeting was to establish the Council's Strategic Plan for the next five years. A report was prepared outlining the City Council's Mission, Vision and Core Values, as well as six overall goals. Each goal had identified objectives and strategies, with time lines for beginning and completing the goals.

On March 9, 2013, the City Manager and his key staff met. Their purpose was two-fold. First, staff reviewed and discussed the Mission, Vision and Core Values developed by the City Council and created Leadership Statements for the staff to follow to ensure their work is consistent with the value of the City Council. Secondly, staff reviewed and clarified the goals, objectives and strategies identified by the City Council; if necessary identify additional goals consistent with the overall mission, vision and values; and establish the framework for an action plan. The result of their work is documented in this report.

The Strategic Plan will provide a blueprint for action over the next five years. When developing the annual budget, staff will be tasked with making sure that expenditures and programs further the goals and Core Values stated in this document. This provides clear direction to the staff as to what priorities are important to the Council and plans can be made accordingly to make sure that resources are allocated towards those ends. Additionally, this plan is an excellent communication tool that the Council and the staff can use when speaking with residents and businesses. Many times, ad hoc requests can derail longer-term plans. The Strategic Plan outlines a framework for receiving, prioritizing, and budgeting for resident requests.

All participants, staff and Council, agreed to commit to the success of this plan. A plan only becomes a useful and working document when all the participants (as a whole and as individuals) make a commitment to review it regularly, use it monthly, and modify it as needed. It is a tool that can and should be used regularly to track progress, make notes of variations between expectations and actuals, of timelines and expenses, to help accomplish each goal, and to hold one another accountable for updates and completion.

- **Mission Statement**

The Council reviewed and revised the Mission Statement & Vision Statement of the City and the results are as follows:

The City of La Porte embraces our heritage, community values, and opportunities, while enhancing the quality of life for our citizens

Vision Statement

To provide improved infrastructure, to drive economic growth, and to enhance quality of life for our citizens.

- **Core Values**

The City Council wanted to specify the core values under which the City and its staff function. Core values are the general guidelines that establish the foundation for how an organization will operate. Staff then discussed these value statements to define and gain an understanding of what those Core Value meant to staff from a leadership perspective. Staff first discussed what the elements of each Core Value represented, then prepared a Leadership Statement for each one.

The following are the Core Values of the City of La Porte:

- **Health & Public Safety:** City employees will ensure the health and safety of our citizens by providing and maintaining superior public infrastructure and public safety services.
- **Integrity & Accountability:** City employees will be open, honest and transparent, and be accountable to the Council so that Council can be responsive to the citizens.
- **Superior Customer Service:** City employees will proactively provide superior customer service in a positive and timely manner.
- **Quality in everything we do:** City employees will strive for superiority in all services we provide.

- **Goal and Plan Development**

During the Council Retreat in October 2012, six goals were developed by the Council, with staff providing assistance in the development of objectives. In March 2013, the staff further added “meat to the bone” to outline more specifically the actions that would be necessary to achieve the stated goals. The development and implementation of the action plan will serve to provide Council a clear understanding of how and when each of their goals will be accomplished. The action plan proposes to do the following:

- Identify a team leader: Each Goal needs a champion who will lead the effort to accomplish the goal and be held accountable for the action plan that is developed. A team leader for each goal was assigned.
- Identify team members. Likewise each goal needs a larger team, consisting of fellow staff from across all departmental lines where appropriate, to assist in the implementation process.
- Identify partners. Each team should identify the partners, outside the city organization, who can provide expertise and resources to accomplish the goal.
- Define action steps. Each objective needs defined action steps showing Council how the goal will be accomplished. The action steps provide the basis for benchmarks.
- Prepare a timeline. Timelines were prepared for each of the objectives. Staff reviewed those timelines and recommended adjustments.

The Council-identified goals are:

- Improve Infrastructure
- Preserve Heritage – to preserve the structure and amenities that make La Porte unique
- Ensure that all departments and facilities are ready for any disaster
- To encourage economic development/retail development
- To provide Superior Customer Service
- To revitalize blight/146

In addition to the six Council-identified goals, it was agreed that key areas of city government were not included in the goals identified by Council. Staff was tasked with discussing other areas where they would establish goals and objectives and bring them to Council for consideration and approval to include in the Strategic Plan. Several new goals were identified and are proposed for Council consideration:

- To provide and maintain superior public safety
- Continue to improve the quality of life through recreational amenities
- Create a Neighborhood Preservation Program
- Provide diverse and timely communications that promote and influence a positive public perception of La Porte

One critical component to ensuring that the elements of the Strategic Plan are being implemented is to provide regular status reports to the City Council. Staff prepares and presents to council quarterly written reports supplemented with oral reports or action items for implementation that may be necessary in-between written reports.

In fiscal year 2014, City staff appointed key department directors to carry out the major components of the strategic plan. Staff developed a matrix that identifies target dates for completion of the components of the strategic plan.

Relevant Financial Policy

City staff is complying with the new GASB pronouncement 68 regarding pension reporting.

Major Initiatives

Public Works identified additional major infrastructure improvements needed in the upcoming years, consequently, we issued \$10.65 million in certificates of obligation funded by Texas Water Development Board in fiscal year 2017 for utility improvements.

Long Term Planning

Given the current economy and the uncertainty of the next few years, the City's existing financial position remains strong. The City has incorporated several strategies to decrease the expenses to the City over the next several years. Rising costs of personnel and the related benefits have been a challenge to the City; however, over the last few years, a healthy fund balance in the General Fund has allowed the City to weather these rising costs.

The city of La Porte is experiencing significant commercial and residential development. Over the past 12 months, multiple restaurants and retail establishments have opened in the City. The Pipeline Grill opened in December 2015 with an estimated capital investment of \$1.2 million. Our TIRZ board and City Council approved a large entertainment capital investment estimated to exceed \$100 million.

Additionally, the housing market in the Houston area, which included La Porte, has seen a 10% growth in the median price of homes over the last two years. The Panama Canal expansion is bringing about a significant growth in warehouse operations and hotels. The deepening and widening of the port is prompting expansion of the Barbour's Cut terminal, which is located in La Porte, and the Bayport Terminal, which is located 1 mile outside the city limits, to allow receiving from super container ships.

The low cost of natural gas continues to provide stability in the petro chemical market; consequently we are experiencing significant growth in our industrial districts. Additionally several industrial district expansion are under way worth over \$600 million.

Conservative revenue estimates and efforts to reduce expenditures have contributed to the City's strong financial position and have allowed the City to weather the economic slump. We are especially pleased

that there have been no property taxes rate increases for (27) twenty-seven years. Additional capital projects are being funded by utilizing excess fund balances and previously issued debt that had been stranded. With the associated fund draw downs, the remaining fund balances continue to meet operational objectives and current fiscal policies.

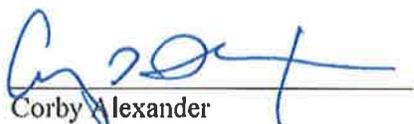

Awards and Acknowledgements

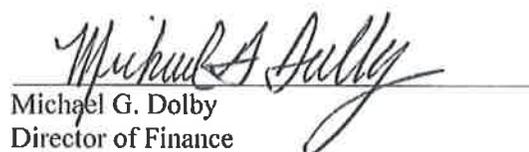

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended September 30, 2015. This was the thirty-fifth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate. In addition, the government also received the GFOA's Distinguished Budget Award for its annual budget document. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide and a communications device. Other financial awards to the City are the Popular Financial Report Award from GFOA, the Investment Policy Award from the Government Treasurer's Organization of Texas, the Transparency Stars Award from the State of Texas Comptroller and the Achievement of Excellence in Procurement Award from the National Procurement Institute.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance and administration department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the mayor and city council for their unflinching support for maintaining the highest standards of professionalism in the management of the City of La Porte's finances.

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members
 of the City Council and Citizens
 City of La Porte, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund financial of the City of La Porte, Texas (the "City") as of and for the year ended September 30, 2016, which collectively comprise the City's basis financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the Tax Increment Reinvestment Zone Fund, which represents 3 percent and 15 percent, respectively, of the assets and revenues of the aggregate other governmental funds and 8 percent and 3 percent, respectively, of liabilities and revenue of the governmental activities. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it related to the amounts included for the Tax Increment Reinvestment Zone Fund, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note I to the financial statements, in 2016 the City adopted new accounting guidance, Governmental Accounting Standards (GASB) Statement No. 72, *Fair Value Measurement and Application*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension information on pages 4 through 11 and 61 through 66, respectively, to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operations, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtain during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements.

Other Information

Our audit was conducted for purposes of forming opinions on the financial statements that collectively comprise the City's basic financial statement. The combining and individual nonmajor fund financial statements and schedules, introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated [REDACTED], 2017, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of testing of internal controls over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**MANAGEMENT'S
DISCUSSION AND ANALYSIS**

CITY OF LA PORTE, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of La Porte ("the City"), we offer the readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2016. It should be read in conjunction with the accompanying letter of transmittal and the accompanying basic financial statements.

Overview of the Financial Statements

The discussion and analysis serves as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements and the required supplementary information. This report also contains other supplement information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the four reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through their user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, health and sanitation and culture and recreation. The business-type activities of the City consist of water and sewer utilities, airport, and the La Porte Area Water Authority.

The government-wide financial statements can be found on **pages 12 – 14** of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories – governmental and proprietary – and utilize different accounting approaches.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 14 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general, debt service and capital improvements funds, which are considered to be major funds. Data from the other 11 governmental funds are combined into a single, aggregated presentation.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 15 – 17 of this report.

Proprietary Funds. The City maintains two types of proprietary funds. Proprietary funds are used to report the same functions presented as business type activities in the government-wide statements. The City uses proprietary funds to account for its utilities, airport and water authority. Internal services funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses its internal service funds to account for motor pool services, technology services and insurance. Because these services predominately benefit the governmental rather than business type functions, they have been included in the governmental activities in the government-wide financial statements.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements, only in more detail. The City uses enterprise funds to account for its utility operations, La Porte Area Water Authority and the Airport. All internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. The basic proprietary fund financial statements can be found on pages 19 – 23 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 – 60 of this report.

Other Information. In addition to the basic financial statements and the accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide other post employee benefits, pension information and general fund budgetary comparisons. Required supplementary information can be found on pages 61 – 66 of the City's Comprehensive Annual Financial Report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal services funds are presented immediately following the required supplementary information. Combining and individual fund statements and supporting schedules can be found beginning on page 67 of the City's Comprehensive Annual Financial Report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the City's financial position. For the City, assets and deferred outflows exceed liabilities and deferred inflows by \$130,394,368 as of September 30, 2016, in the primary government as follows:

	Governmental Activities		Business-Type Activities		Totals

Net Investment in Capital Assets

The largest portion of the City's net position (63.4%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, improvements, construction in progress and infrastructure), less any debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

Restricted Net Position

A portion of the City's net position, \$18,701,335 or 14.3% represents resources that are subject to external restriction on how they may be used.

Unrestricted Net Position

The remaining balance is unrestricted net position, \$29,034,352 or 22.3%, and may be used to meet the City's ongoing obligation to residents and creditors. Both of these categories remained relatively stable compared to the prior year.

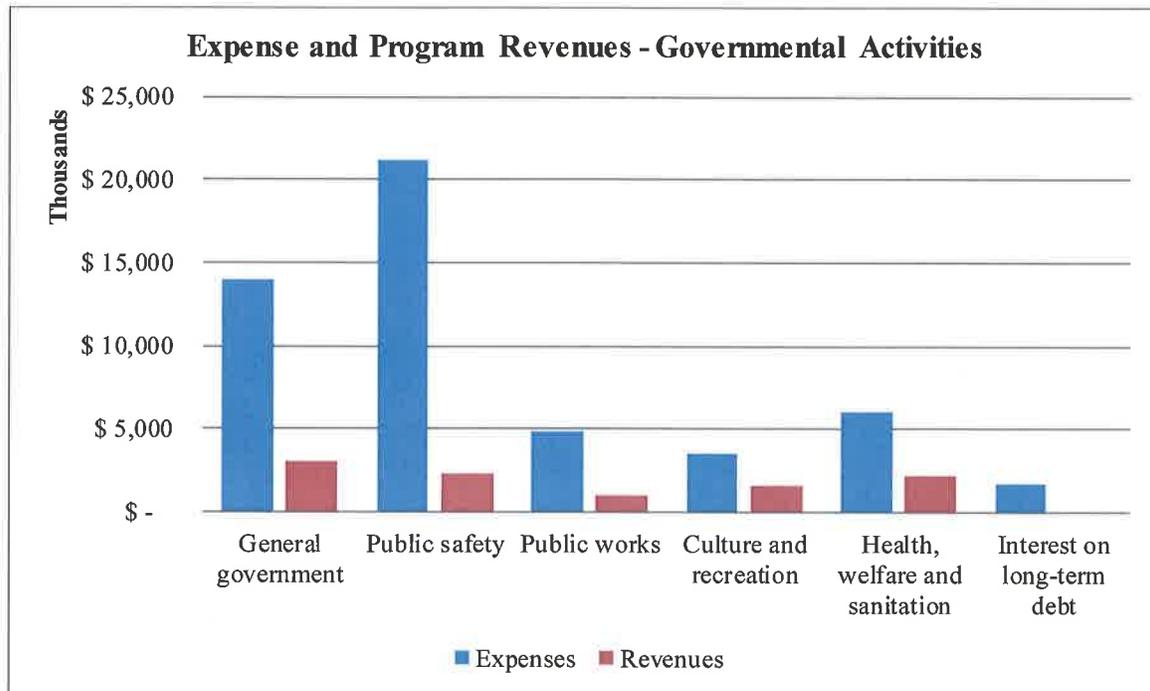

The following table provides a summary of the City's operations for the year ended September 30, 2016, with comparative data total for the year ended September 30, 2015. Governmental activities increased the City's net position by \$10,128,761. Business-type activities increased net position by \$312,694.

City's Changes in Net Position For the Years Ended September 30, 2016 and 2015

Increase (decrease) in net position	10,128,761	11,748,626	312,694	631,277	10,441,455	12,379,904
Net position - beginning	79,783,413	84,229,138	40,169,500	40,472,574	119,952,913	124,701,712
Prior period adjustment	-	(16,194,353)	-	(934,351)	-	(17,128,704)
Net position - ending	\$ 89,912,174	\$ 79,783,411	\$ 40,482,194	\$ 40,169,500	\$ 130,394,368	\$ 119,952,912

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the governmental as a whole, as well as for its separate governmental and business-type activities.

Governmental Activities. A comparison of program expenses to program revenues and revenues by source for governmental activities follows:

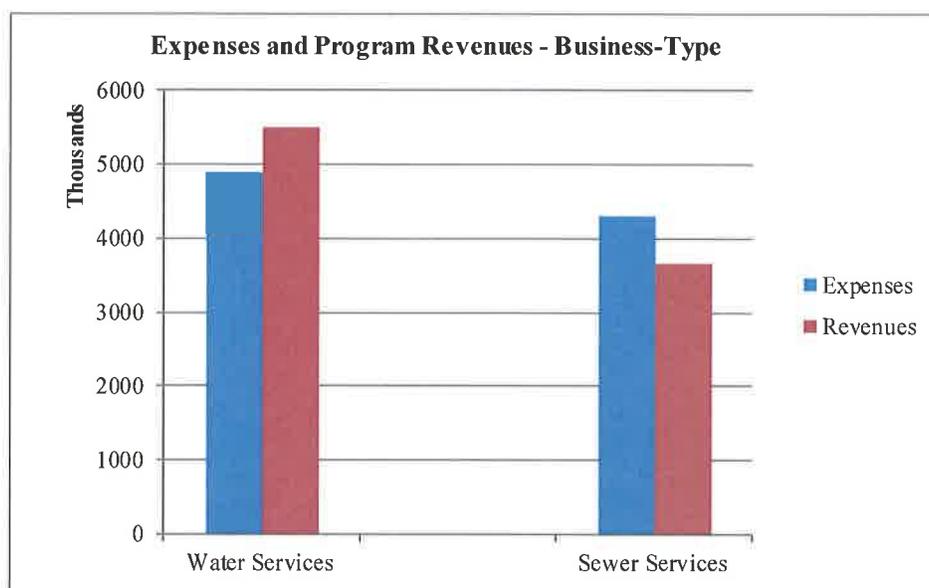

Revenues sources for governmental activities were distributed as follows:

For the year ended September 30, 2016, revenues without transfers in the governmental activities totaled \$61,998,810. This represents an decrease of approximately -\$1,782,724 or -3.0%.

Business-Type Activities. Revenues without transfers or interest in the business-type activities totaled \$9,274,870, a \$506,561 decrease from the prior year. This decrease is due to a decrease in grants and contributions. A comparison between expenses and program revenues (charges for services) relating to Utility operations follows.

Financial Analysis of the Government’s Funds

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of the close of the current fiscal year, the City’s governmental funds reported combined ending fund balances of \$67,753,358, an increase of \$8,852,717 from the prior year. This increase is due to an increase in property taxes, and industrial payments.

Governmental Funds. The focus of the City’s governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

The General fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$33,621,557, an increase of \$8,405,010 due to an increase in revenue collections and cost containment. As a measure of the general fund’s liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 87.0% of total general fund expenditures and total fund balance represents 103.3% of the same.

The Debt Service fund has a total fund balance of approximately \$3,540,878, all of which is restricted for the payment of debt service. The net increase in fund balance from the prior year of \$380,127 was due to an increase in property tax revenue.

The 2015 Certificate of Obligation Bonds fund experienced a decrease in fund balance in the amount of \$0. This was a planned decrease as the City constructed and acquired various capital assets with proceeds from a previous bond issuance.

Proprietary Funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements.

Unrestricted net position of the respective proprietary funds are Utility - \$2,408,776, La Porte Area Water Authority - \$2,578,718 and Airport - \$356,636. The changes in net position of the proprietary funds for 2016 were as follows: Utility – increase of \$661,472, La Porte Area Water Authority – decrease of \$202,545 and Airport – decrease of \$146,233.

General Fund Budgetary Highlights

Actual revenues exceeded the final General Fund budgeted revenues by \$5,805,850. Property tax, Industrial Payments, and miscellaneous revenue exceed the projected budget by \$2,476,555, \$1,940,930 and \$655,776, respectively. Licenses and fees and fines and forfeitures also exceeded budget by \$149,926 and \$150,322, respectively.

The total appropriations exceeded expenditures by \$1,623,930, the majority of which can be attributed to five departments. Administration had a positive variance in the amount of \$293,654 due to open positions and reduction in special programs. Planning and engineering had a positive variance in the amount of \$361,788 due to open positions. The variance in Fire and Police for \$52,212 and \$375,008 was due to open positions in the department. Culture and recreation had a positive variance of \$138,427 due to open positions.

Capital Asset and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of September 30, 2016, amounts to \$117,073,990 (net of accumulated depreciation). This investment in capital assets includes land, buildings, roads, park facilities, water and wastewater plants and service lines, machinery and equipment, and construction in progress. The total decrease in the City's investment in capital assets for the current fiscal year was approximately \$460,694. The following table shows capital assets activity for the 2016 fiscal year:

	Governmental Activities		Business-Type Activities		Totals	
	2016	2015	2016	2015	2016	2015
Land	\$ 9,823,031	\$ 9,525,974	\$ 447,791	\$ 447,791	\$ 10,270,822	\$ 9,973,765
Construction in progress	12,216,226	16,459,209	916,411	266,050	13,132,637	16,725,259
Infrastructure	13,819,465	13,080,230	-	-	13,819,465	13,080,230
Buildings and improvements	36,078,583	32,752,085	31,236,081	32,968,686	67,314,664	65,720,771
Machinery and equipment	10,517,142	9,660,012	2,019,260	2,374,647	12,536,402	12,034,659
Total capital assets, net	\$ 82,454,447	\$ 81,477,510	\$ 34,619,543	\$ 36,057,174	\$ 117,073,990	\$ 117,534,684

Major capital asset events during the current year include the reporting of a drainage master plan study.

Construction in progress at year-end represents ongoing projects; to include various water and sewer projects. Additional information on capital assets activity can be found on pages 39 – 40 in the notes to the financial statements.

Long-Term Debt. At the end of the current fiscal year, the City had total bonded debt outstanding of \$35,500,000 of this amounts, \$35,150,000 is backed by the full faith and credit of the City, and the remainder represents revenues bonds secured solely by specific revenue sources.

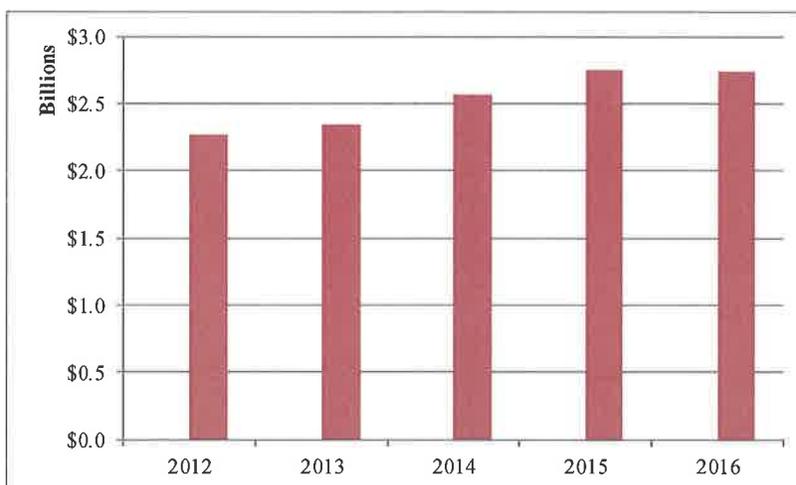

The City of La Porte maintains an “Aa2”, “AA”, and “AA” by Moody’s, Standard and Poor’s, and Fitch, respectively, for general obligation debt. The revenue bonds have been rated “NR”, “AA”, “NR” by Moody’s, Standard and Poor’s, and Fitch, respectively.

Additional information on long-term debt activity can be found on pages 40 – 44 in the notes to the financial statements.

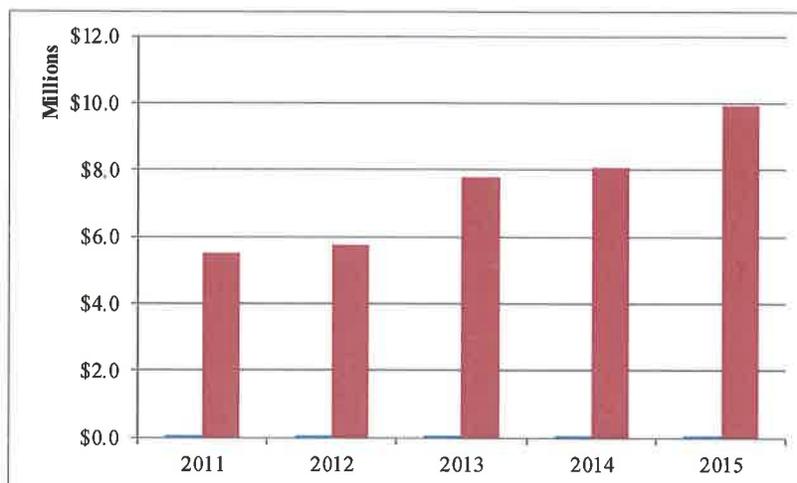

Economic Factors and Next Year’s Budgets and Rates

The unemployment rate for the City of La Porte is current 4.6 percent which is a decrease from the rate of 5 percent a year ago. This is slightly higher than the state’s average unemployment rate of 4.2 percent which is less than the national average of 5.1 percent. During the upcoming year, the City will closely monitor the volatility in the housing market. Although our area has not been adversely affected by home foreclosures, we will observe future economic changes. Total assessed value for all residential and commercial property in the City of La Porte exceeded \$2.7 billion for fiscal year 2016. The trend for total assessed values has fluctuated slightly over the past five years resulting in a total increase of 17 percent.

Assessed property values trends (in billions):

Sales tax revenues trends (in millions):

Contacting the City’s Financial Management

This financial report is designed to provide our citizens, customers, and creditors a general overview of the City’s finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Finance, 604 West Fairmont Parkway, La Porte, Texas, 77571.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO
THE STATEMENT OF NET POSITION

SEPTEMBER 30, 2016

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balance, governmental funds	\$ 67,753,358
Capital assets used in governmental activities are not current financial resources and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position.	73,038,885
Certain other long-term assets (property taxes, court fines, EMS and other receivables) are not available to pay current period expenditures and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the statement of net position.	2,876,299
Some liabilities and deferred outflows and inflows are not due and payable in the current period and are not included in the fund financial statement, but are included in the governmental activities of the statement of net position.	
Bonds payable	(22,815,000)
Certificates of obligation payable	(12,335,000)
Premium on bonds	(1,627,335)
Deferred charge on refunding	1,037,729
Interest payable	(46,023)
Due to developer	(5,509,405)
Compensated absences	(3,000,345)
Deferred resources related to pensions	8,220,241
Net pension liability	(19,512,126)
Net OPEB obligation	(12,056,360)
The assets and liabilities of certain internal service funds are not included in the fund financial statements but are included in the governmental activities of the Statement of Net Position.	<u>13,887,256</u>
Net position of governmental activities	<u>\$ 89,912,174</u>

CITY OF LA PORTE, TEXAS

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES**

FOR THE YEAR ENDED SEPTEMBER 30, 2016

Net change in fund balances - total governmental funds:	\$	8,852,717
Amounts reported for Governmental Activities in the Statement of Activities are different because:		
Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. This is the amount by which depreciation \$4,021,041 exceeded capital outlays of \$4,025,558 in the current period.		4,517
Governmental funds report the entire net sales price (proceeds) from the sale of an asset as an inflow because it provides current financial resources. In contrast, the Statement of Activities reports only the gain on the sale of assets. Thus, the change in net assets differs from the change in fund balance by the book value of the assets sold and disposed.	(1,485)
Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned.		342,083
Repayment of bond principal and payments to developers are an expenditure in the governmental fund, but the repayment of principal reduces long-term liabilities in the statement of net position.		3,900,206
Proceeds from the issuance of long-term debt and premium on long-term debt are reported as other financing sources in the governmental funds. In the government-wide statements, proceeds are treated as an increase in long-term liabilities.	(78,079)
Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:		
Change in interest payable		3,704
Change in refunding gain and loss	(118,215)
Change in premiums on issuance of bonds		163,957
Change in deferred outflows related to pensions		5,897,513
Change in deferred inflows related to pensions	(458,686)
Change in net pension liability	(6,548,862)
Change in net OPEB obligation	(1,636,880)
Change in compensated absences		110,653
Internal service funds are used by management to change the cost of certain activities, such as fleet maintenance and information technology, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.	(304,382)
Change in net position of governmental activities	\$	<u>10,128,761</u>

CITY OF LA PORTE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of La Porte, Texas (the “City”) was incorporated under the laws of the State of Texas on August 10, 1892. The City operates under a “Council-Manager” form of government and provides the following services as authorized by its charter: public safety, development services, public health and welfare, culture and recreation and waterworks.

The accounting and reporting policies of the City relating to the funds included in the accompanying basic financial statements conform to U.S. generally accepted accounting policies (GAAP) applicable to state and local governments which include the principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants and the Financial Accounting Standards Board. The more significant accounting policies of the City are prescribed below.

A. Reporting Entity

The City’s basic financial statements include the accounts of all City operations. The City, with its elected governing body of mayor and eight council members, is considered a primary government. As required by GAAP, the basic financial statements include the City and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the government’s operations. All component units have been included as blended component units because of the significance of their operations and financial relationships with the City.

The La Porte Area Water Authority (the “Authority”) is governed by a five-member board appointed by the City Council. Although it is a legally separate entity, the Authority provides services almost exclusively for the City’s water operations, and is in substance a part of the City’s primary operations. The Authority was created by the City to finance the operations involved in obtaining surface water supplies and converting these supplies to potable water. This water is sold primarily to the City of La Porte (86%) with the remainder being sold to other neighboring political subdivisions. The operations of the Authority are reported as a proprietary fund type.

The Tax Increment Reinvestment Zone (the “Zone”) is governed by a nine-member board appointed by the City Council. The Zone provides benefits exclusively for the City through reinvestment financing of ad valorem taxes, which are utilized for capital improvements for the City of La Porte. The Zone is presented as a governmental fund type.

The Section 4B Sales Tax Corporation provides services that exclusively benefits the City of La Porte and is governed by a seven-member board appointed by City Council. The Section 4B Sales Tax Corporation is presented as a governmental fund type.

Complete financial statements for each of the individual component units may be obtained through the City of La Porte.

B. Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information about the City as a whole. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the City's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments for interfund services provided and other charges between the City's various other functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

C. Fund Financial Statements

The fund financial statements provide information about the City's funds and blended component units. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate funds in the fund financial statements.

The City reports the following major governmental funds:

The *General Fund* is used to account for all financial transactions that are not accounted for in another fund. The principal sources of revenues of the General Fund are property taxes, sales and use taxes, franchise taxes, licenses and permits, and fines and forfeitures. Expenditures are for general government, public safety, public works and other community services.

The *Debt Service Fund* is used to account for the payment of interest and principal on all general long-term debt of the City except for capital leases for which are accounted for in the General Fund. The primary source of revenue for the Debt Service Fund is general property taxes.

The City reports the following major enterprise funds:

- The *Utility Enterprise Fund* is used to account for operations of the water and sewer services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, but not limited to administration, operations and maintenance of the water and sewer system and billing and collection activities. The fund also accounts for the accumulation of resources for, and the payment of, long-term debt principal and interest for water and sewer debt. All costs are financed through charges to utility customers with rates received regularly and adjusted if necessary to ensure integrity of the fund.
- *La Porte Water Authority* is used to account for revenues and expenses related to obtaining raw surface water and converting it to potable water.
- *Airport Fund* is used to account for financial activities of the airport which includes rentals, grants and other revenues.

Additionally, the City reports the Internal Service Funds which are used to account for the Motor Pool, Technology and Insurance service provide to other departments of the City on a cost reimbursement basis.

During the course of operations the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfer in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, court fines, and interest associated with the current period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period of availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the City.

The proprietary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

1. Cash and Investments

Cash includes amounts in demand deposits, short-term investments which mature within ninety days of the fiscal year end, and various petty cash funds. The short-term investments consist of U.S. Treasury Bills and deposits in the Texas Local Government Pool (TexPool), the Local Government Investment Corporation (LOGIC) all of which have the general characteristics of a demand deposit account. For the purpose of the statement of cash flows, Proprietary Fund types consider temporary investments with a maturity of three months or less when purchased to be cash equivalents.

Investments for the City are reported at fair value, except for the position in investment pools. The City’s investment in pools are 2a7-like pools and are reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission (“SEC”) as an investment company, but nevertheless has a policy that will, and does, operate in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940.

2. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

3. Inventories

Inventories are valued at costs using the first in/first out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased. A portion of the fund balance is classified as non-spendable to reflect minimum inventory quantities considered necessary for the City’s continuing operations.

4. Capital Assets

Capital assets are reported in the applicable governmental or business-type activities column in the government-wide financial statements. The City defines capital assets with an initial, individual cost of \$5,000 or greater and an estimated useful life in excess of one year.

As the City constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at acquisition cost, which is the price that would be paid to acquire an asset with equivalent service potential at the acquisition date.

Land and construction in progress are not depreciated. The remainder capital assets are depreciated using the straight line method over the following estimated useful lives.

<u>Asset Description</u>	<u>Estimated Useful Life</u>
Buildings	20 years
Building improvements	20 years
Infrastructure	20-30 years
Vehicles	4-10 years
Machinery and equipment	4-10 years
Water and sewer systems	20-10 years

5. Pensions

For purposes of measuring the net pension liability for the Texas Municipal Retirement System (TMRS), pension related deferred outflows and inflows of resources, and pension expense, City specific information about its Fiduciary Net Position in the TMRS and additions to/deductions from the City's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability for the Texas Emergency Services Retirement System (TESRS), pension related deferred outflows and inflows of resources, and pension expense, information about the fiduciary net position of TESRS and additions to/deductions from TESRS's fiduciary net position have been determined on the same basis as they are reported by TESRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has the following items that qualify for reporting in this category.

- Deferred charges on refunding – A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Pension contributions after measurement date – These contributions are deferred and recognized in the following fiscal year.
- Difference in projected and actual earnings on pension assets – This difference is deferred and amortized over a closed five year period.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three types of items that qualify for reporting in this category.

- Unavailable revenue is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

- Deferred gain on refunding - A deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the short of the life of the refunded or refunding debt.
- Difference in expected and actual pension experience - This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Changes in actuarial assumptions – These changes are deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.

7. Compensated Employee Absences

The City's employees earn vacation and sick leave, which may either be taken or accumulated, up to a certain amount, until paid upon termination or retirement. For all funds, this liability reflects amounts attributable to cumulative employee services already rendered, where the payment is probable and can be reasonably estimated. The current and long-term portion of the governmental fund type liabilities are recorded in the government-wide financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements. The proprietary fund type liability is recorded as a liability in the individual proprietary funds since payment will be made from the resources of these funds.

Policies relating to the accrual payment of these benefits are as follows:

- Vacation – Employees earn from 10-25 days of vacation per year. Upon separation, employees are paid for all accumulated vacation leave (up to one and one half times their annual accrual rate).
- Sick leave – Full time 8 hour employees accrued 3.70 hours per pay period. Full time 24 hour employees accrue 5.91 hours per pay period and civil service employees accrued 15 days per calendar year. The maximum sick leave time which may be accumulated by any employee shall be 90 days for regular full time employees. For 24 hour shift personnel, the maximum accrual is 1,152 hours. Civil service employees may accrue unlimited sick leave.

8. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

9. Fund Balance Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

10. Net Position Classifications

Classification of net position includes three components as follows:

- Net investment in capital assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings.
- Restricted – This component of the net position consists of constraints placed on net asset use through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through contractual provisions or enabling legislation.
- Unrestricted net position – This component of net position consists of net position that do not meet the definition of “restricted” or “net investment in capital assets.”

11. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The City itself can establish limitations on the use of resources through either commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for specific purposes determined by a formal action of the City Council, highest level of decision-making-authority. The City Council is the highest level of decision-making-authority for the City that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once, adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amount in the assigned fund balance classification are intended to be used by the City for specific purposes, but do not meet the criteria to be classified as committed. The City Council has by resolution authorized the City Manager under the authorization of the Fiscal Affairs Committee to assign fund balance. The City Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenues and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The City strives to maintain a minimum reserve balance of 90 to 120 days for the General Fund and Utility Fund, and 60 to 90 days of operating expenditures in all other funds as outlined in the City's Financial Management Policies as adopted by City Council by resolution.

12. Program Revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues.

13. General and Debt Service Property Taxes

All taxes due to the City on real or personal property are payable at the Office of the City Assessor-Collector and may be paid at any time after the tax rolls for the year have been completed and approved, which is October 1, or as soon thereafter as practicable. Taxes are due upon receipt and all taxes not paid prior to February 1 are deemed delinquent and are subject to such penalty and interest set forth by the Property Tax Code. All property located within the City limits on the first day of January of each year are charged with a special lien in favor of the City from such date for taxes due thereon.

The ad valorem tax rate is allocated each year between the General Fund and the Debt Service Fund. The full amount estimated to be required for debt service on the general obligation debt is provided by the debt service tax together with interest earned in the Debt Service Fund.

14. Industrial Payments

A significant portion of the City's revenue is derived from separate contractual agreements with each industrial company that lies within the City's extraterritorial jurisdiction (known as the "industrial district"). These companies have agreed to pay an amount "in-lieu of taxes" in the unannexed area within the City's extraterritorial jurisdiction. In the current contracts, the entity's agree to pay the City a percentage of what the ad valorem taxes would have been had the entities land, improvements, and inventory been within the corporate limits of the City.

15. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for the enterprise funds and internal service fund include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues not meeting this definition are reported as non-operating revenues and expenses.

16. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual amounts could vary from those estimates.

17. Budgetary Information

Annual budgets are adopted on a basis consistent with GAAP. Annual appropriated budgets are adopted for the general, special revenue funds and debt service funds. All annual appropriations lapse at fiscal year-end. Project length financial plans are adopted for all capital projects funds and are revised annually.

II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

DEPOSITS AND INVESTMENTS

The Texas Public Funds Investment Act (PFIA), as prescribed in Chapter 2256 of the Texas Government Code, regulates deposits and investment transactions of the City.

In accordance with applicable statutes, the City has a depository contract with an area bank (depository) providing for interest rates to be earned on deposited funds and for banking charges the City incurs for banking services received. The City may place funds with the depository in interest and non-interest bearing accounts. State law provides that collateral pledged as security for bank deposits must have a market value of not less than the amount of the deposits and must consist of: (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal and interest on which are unconditionally guaranteed or insured by the State of Texas; and/or (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent. City policy requires the collateralization level to be at least 102% of market value of principal and accrued interest.

The Council has adopted a written investment policy regarding the investment of City funds as required by the Public Funds Investment Act (Chapter 2256, Texas Government Code). The investments of the City are in compliance with the City’s investment policy. The City’s investment policy is more restrictive than the PFIA requires. It is the City’s policy to restrict its direct investments to obligations of the U.S. Government or U.S. Government Agencies, fully collateralized certificates of deposit, bankers’ acceptances, mutual funds, repurchase agreements and local government investment pools. The maximum maturity allowed is five years from date of purchase. The City’s investment policy does not allow investments in commercial paper, collateralized mortgage obligations, floating rate investments or swaps.

Deposit and Investment Amounts

The City’s cash and investments are classified as: cash and cash equivalents and restricted cash and investments. The cash and cash equivalents include cash on hand, fully collateralized deposits with financial institutions and in a privately-managed public funds investment pool account (TexPool and LOGIC). The restricted cash and investments are assets restricted for specific use.

The following schedule shows the City’s recorded cash and investments at year-end:

	Total Reported Value		
	Governmental Funds	Internal Service Funds	Enterprise Funds
Cash deposits	\$ 8,453,485	\$ 297,357	\$ 148,075
Investment Pools	42,219,328	3,201,629	6,363,833
US Agency Securities	16,082,659	1,466,855	2,458,748
	\$ 66,755,472	\$ 4,965,841	\$ 8,970,656

In fiscal year 2016, the City adopted GASB Statement No. 72 (“GASB 72”), *Fair Value Measurement and Application*. GASB 72 was issued to address accounting and financial reporting issues related to fair value measurement.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of September 30, 2016:

- U.S. Treasury securities of \$20,008,262 were valued using a pricing model (Level 2 inputs).

Interest Rate Risk

At year-end, the City had the following investments subject to interest rate risk disclosure, under U.S. GAAP, by investment type:

Investment Type	Total Carrying Value	Weighted Average Maturity (months)
Public funds investment pools	\$ 51,784,790	48.0
Federal Home Loan Mortgage Corporation (FHLMC)	10,008,206	25.8
Federal Farm Credit Bank (FFCB)	4,000,260	27.0
Federal Home Loan Bank (FHLB)	5,999,796	33.0
Total carrying value	\$ 71,793,052	
Portfolio weighted average maturity		22.3

The City's investment policy specifies the maximum stated maturity from the date of purchase for any individual investments may not exceed 5 years and the maximum dollar weighted average maturity for the pooled fund group (investment portfolio) may not exceed 2 years.

Concentration of Credit Risk

The policy does not require investments to be staggered in a way that protects interest income from the volatility of interest rates. The policy has not established limitations on percentages of the total portfolio that may be invested in securities other than the repurchase agreements, Treasury bills and notes or insured and collateralized Certificates of Deposits.

Investment Type	Total Reported Value	Percentage of Total Portfolio
Investment Pools	\$ 51,784,790	72.13 %
US Agency Securities	20,008,262	27.87 %
Total	\$ 71,793,052	100.00 %

Credit Risk

The primary objective of the City's adopted Investment Policy is the safety of principal. Credit risk within the City's portfolio among authorized investments approved by the City's adopted Investment Policy is represented in U.S. Treasury Bills, Notes or Bonds, and other securities which are guaranteed as to principal and interest by the full faith and credit of the United States of America, collateralized or fully insured certificates of deposits, FDIC insured banks in the State of Texas, repurchase agreements if secured by U.S. Treasury Bills, Notes or Bonds and Public Funds Investment Pools.

PROPERTY TAX

The appraisal of property within the City is the responsibility of the Harris County Appraisal District (the "Appraisal District"). The Appraisal District is required under the Property Tax Code to appraise all property within the county on the basis of 100% of its market value. The value of real property within the Appraisal District must be reviewed every five years; however, the City may, at its own expense, require annual reviews of appraised values. The City may challenge appraised values established by the Appraisal District through various appeals and, if necessary, take legal action. Under this legislation, the City continues to set tax rates on City property. However, if the effective tax rate, excluding tax rates for repayment of general obligation bonds and other contractual obligations, adjustment for new improvements, exceeds the effective tax rate and the rollback rate tax rate, qualified voters of the City may petition for an election to determine whether to limit the tax rate to no more than the rollback tax rate. The City's property taxes are levied annually in October on the basis of the Appraisal District's assessed values as of January 1 of that calendar year. Appraised values are established by the Appraisal District at market value, assessed at 100% of appraised value and certified by the Harris County Appraisal District Board of Review. The City property taxes are billed and collected by the City's Tax Assessor/Collector. Such taxes are applicable to the fiscal year in which they are levied and become delinquent with an enforceable lien on property on February 1 of the current calendar year. The City is permitted, by Article XI, Section 5, of the State of Texas Constitution and the City Charter, to levy property taxes up to \$2.50 per \$100 of assessed valuation for general governmental services. Within the \$2.50 maximum levy, there is no legal limit upon the amount of property taxes, which can be levied for debt service. The property tax rates to finance general governmental services and debt service for fiscal year 2016 were \$0.605 and \$0.105, respectively, per \$100 of assessed valuation. The 2015 assessed value and total tax levy as adjusted through September 30, 2016 were \$3,028,282,747 and \$21,500,808 respectively. The City has enacted an ordinance providing for exemption of twenty percent (20%) of the assessed value of residential homesteads plus an additional \$60,000 for persons 65 years of age or older for property taxes. An exemption of \$60,000 is allowed for disabled persons on homesteads and up to \$12,000 is allowed for disabled veterans on any one piece of property. Additionally, the market value of agricultural land is reduced to agricultural value for purposes of the City's tax levy calculation.

Property taxes are levied by October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. The Harris County Central Appraisal District ("HCCAD") establishes appraised values. Taxes are levied by the City Council based on the appraised values and operating needs of the City.

RECEIVABLES

Amounts are aggregated into a single accounts receivable (net of allowance for uncollectibles) line for certain funds and aggregated columns. Below is the detail of receivables for the General Fund, Debt Service Fund, and nonmajor governmental funds in the aggregate, including the applicable allowances for uncollectible accounts.

	<u>General</u>	<u>Debt Service</u>	<u>Other Governmental</u>	<u>Total Governmental</u>
Receivables:				
Taxes	\$ 2,946,366	\$ 317,028	\$ 912,778	\$ 4,176,172
Mowing and demolition	586,233	-	-	586,233
EMS	1,958,019	-	-	1,958,019
Solid waste	135,864	-	-	135,864
Municipal court	499,443	-	-	499,443
Other	153,149	-	14,846	167,995
Interest	28,367	-	10,633	39,000
Allowance for uncollectibles	<u>(1,212,345)</u>	<u>(74,478)</u>	<u>-</u>	<u>(1,286,823)</u>
	<u>\$ 5,095,096</u>	<u>\$ 242,550</u>	<u>\$ 938,257</u>	<u>\$ 6,275,903</u>

Revenues of the Utility Fund, an enterprise fund, are reported net of uncollectible amounts. Total uncollectible amount related to utility sales as of year-end was \$41,021.

CAPITAL ASSETS

Capital assets activity for the year ended September 30, 2016, was as follows:

	Balance September 30, 2015	Increases	Reclassification/ (Decreases)	Balance September 30, 2016

Totals		\$ 13,133,011	\$ 1,619,106

LONG-TERM DEBT

The City issues a variety of long-term debt instruments in order to acquire and/or construct major capital facilities and equipment for governmental and business-type activities. These instruments include general obligation bonds, certificates of obligation and revenue bonds. Future ad valorem tax revenues, water and sewer system revenues or liens on property and equipment secure these debt obligations.

The schedule below details the terms of public property finance contractual obligation, general obligation bonds, certificates of obligations and revenue bonds outstanding as of September 30, 2016:

	<u>Governmental</u>	<u>Business-Type</u>
2005 General Obligation Serial Bonds due in annual payments through March 15, 2025; interest at 3.75% to 4.25% \$7,675,000 issued to construct a police facility.	\$ 400,000	\$ -
2005 Certificates of Obligation due in annual payments through March 15, 2025; interest at 2.8% to 3.8% \$1,800,000 issued for water and sewer improvements and fire truck.	90,000	-
2006 General Obligation Serial Bonds due in annual payments through March 15, 2025; interest at 3.75% to 4.3% \$5,765,000 issued for police facility, sports, and water and sewer improvements.	140,000	-
2006 Certificates of Obligation due in annual payments through March 15, 2025; interest at 3.75% to 4.3% \$5,765,000 issued for police facility, sports and water and sewer improvements.	315,000	-
2010 Certificates of Obligation due in annual payments through March 15, 2026; interest at 3.00% to 4.00% \$6,265,000 issued for street, drainage, and park improvements.	4,535,000	-
2010 General Obligation Refunding Bonds due in annual payments through March 15, 2020; interest at 2.00% to 4.00% \$4,295,000 issued to refund previous debt.	1,705,000	-
2010 LPAWA Contract Revenue Refunding Bonds due in annual payments through March 15, 2017; interest at 2.50% to 4.00% \$4,085,000 issued to refunding previous debt.	-	320,000
2012 General Obligation Refunding Bonds due in annual payments through March 15, 2025; interest at .65% to 3.00% \$9,435,000 issued to refund previous debt.	9,125,000	-
2014 General Obligation Refunding Bonds due in annual payments through March 15, 2025; interest at 2.00% to 3.50% \$9,300,000 issued to refunding previous debt.	8,310,000	-
2015 Certificates of Obligation due in annual installments through March 15, 2030; interest at 2.25% to 3.00% \$7,770,000 issued for water and sewer system improvements, and street and drainage improvements.	7,395,000	-
2016 General Obligation Refunding Bonds due in annual payments through March 15, 2029; interest at 2.00% to 4.00% \$3,165,000 issued to refund previous debt.	3,135,000	-
Total Bonds Payable	<u>\$ 35,150,000</u>	<u>\$ 320,000</u>

Changes in the City's long-term liabilities for the year ended September 30, 2016 are as follows:

	Balance September 30, 2015	Additions	(Reductions)	Balance September 30, 2016	Amounts Due Within One Year
Governmental Activities:

Total Governmental Activities	<u>\$ 73,484,204</u>	<u>\$ 12,892,990</u>	<u>\$(9,414,348)</u>	<u>\$ 76,962,846</u>	<u>\$ 3,002,148</u>

	Balance September 30, 2015	Additions	(Reductions)	Balance September 30, 2016	Amounts Due Within One Year
Business-Type Activities:					
Bonds Payable:					
Revenue bonds	\$ 990,000	\$ -	\$(670,000)	\$ 320,000	\$ 320,000
Public property finance certificates of obligation	262,500	-	(262,500)	-	-
Premium on bond issuance	25,238	-	(17,359)	7,879	-
Total Bonds Payable	<u>1,277,738</u>	<u>-</u>	<u>(949,859)</u>	<u>327,879</u>	<u>320,000</u>
Compensated absences	184,916	53,242	(66,469)	171,689	8,584
Net pension liability-TMRS	1,446,430	717,217	(27,134)	2,136,513	-
Net OPEB obligation	1,384,467	293,090	(67,762)	1,609,795	-
Total Business-Type Activities	<u>\$ 4,293,551</u>	<u>\$ 1,063,549</u>	<u>\$(1,111,224)</u>	<u>\$ 4,245,876</u>	<u>\$ 328,584</u>

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities in the governmental funds. Compensated absences generally are paid by the General Fund for the governmental activities. Net pension liability and OPEB obligation are liquidated by the general fund, and retainage payable is liquidated by capital project and restricted funds.

General Obligation Bonds and Certificates of Obligation

General Obligation Bonds are direct obligations issued on a pledge of the general taxing power for the payment of the debt obligations of the City. General Obligations bonds and Certificates of Obligation require the City to compute, at the time other taxes are levied, the rate of tax required to provide (in each years bonds are outstanding) a fund to pay interest and principal maturity. The City is in compliance with this requirement.

Revenue Bonds

Water and Sewer Revenue Bonds constitute special obligations of the City solely secured by a lien on and pledge of the net revenues of water and sewer system. On May 31, 2010, the La Porte Water Authority issued \$4.085 million Contract Revenue Refunding Bonds, Series 2010, to defease \$2.95 million of unlimited tax bonds. The Revenue Bonds are collateralized by the net revenue of the La Porte Area Water Authority and are payable through September 30, 2017. The ordinances provide that the revenue of the system is to be used first to pay operating and maintenance expenses of the system and second to establish and maintain the Revenue Bond funds. Remaining revenues may then be used for any payments expected to require 64 percent of net revenues. Principal and interest paid for the current year and net system revenues were \$692,850 and \$269,077. The ordinances also contain provisions, which, among other items, restrict the issuance of additional Revenue Bonds unless the special funds noted above contain the require amounts and certain financial ratios are met. The City is in compliance with all significant financial requirements of as September 30, 2016.

The debt service requirements for each of the City's bond type are as follows:

Fiscal Year	Governmental Activities			
	General Obligation Bonds		Certificate of Obligation	
	Principal	Interest	Principal	Interest
2017	\$ 1,725,000	\$ 681,342	\$ 1,125,000	\$ 382,361
2018	2,195,000	624,422	745,000	348,680

	Contract Revenue Bonds	
	Principal	Interest
2017	\$ 320,000	\$ 6,400
	<u>\$ 320,000</u>	<u>\$ 6,400</u>

Prior Year Refunding of Debt

The City defeased certain outstanding revenue bonds by placing proceeds of new bonds in irrevocable trust to provide for all future debt service payments. Accordingly, the respective trust accounts and liability for the defeased bond are not included in the City's financial statements. As of September 30, 2016, the City does not have bonds considered defeased and outstanding.

Advance Refunding

The City issued \$3,165,000 of general obligation refunding bonds to provide resources to purchase U.S. Government State and Local securities that were placed in an irrevocable trust for the purchase of generating resources for all future debt service payments of \$3,490,716 of certificate of obligations and refunding bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the statement of net position. The reacquisition price exceeded the net carrying amount of the old debt by \$57,696. This amount is being netted against the old debt and amortized over the remaining life of the old debt, which is shorter than the life of the new debt issued. This advance refunding was undertaken to reduce total debt service payments over the next 16 years by \$2,162,208 and resulted in an economic gain of \$1,716,443.

Due to Developers

The TIRZ is a party to several agreements with Developers who own property in the La Porte Tax Increment Zone. The TIRZ is obligated to repay the Developers for public improvements made on the property up to the amount of incremental tax value gained.

The Authority has entered into agreements with the following Developers: Port Crossing Land, LP; 65 La Porte, Ltd.; and Retreat at Bay Forest, LP., Port Crossing Land, LP has completed the public improvements detailed in the agreement with the Authority, and assigned their receivable amount to Liberty Property Limited Partnership in 2015.

Port Crossing Land, LP's reimbursable expenditures totaled \$12,096,488 including interest at May 27, 2009. In the current fiscal year, the Developer was reimbursed \$1,147,826. To date, reimbursements in the amount of \$8,939,782 have been made to Port Crossing Liberty for incremental tax value gained. Interest was recalculated, and payments were applied to interest first, then principal.

Retreat at Bay Forest, LP's reimbursable expenditures totaled \$224,760, including interest of \$36,885 for the pilot channel and excavation costs as of November 20, 2014. No additional interest will be due under the agreement. During the current fiscal year, a reimbursement of \$46,636 was applied to principal.

Beazer Homes Texas LP's reimbursable expenditures for Bayside Crossing totaled \$1,449,517 including interest at August 24, 2016. In the current fiscal year, the Developer was reimbursed \$17,940 for interest.

Senior Associate's reimbursable expenditures and land for Bayside Crossing totaled \$466,032 including interest at August 24, 2016. In the current fiscal year, the Developed was reimbursed \$5,769 for interest.

In addition, a Developers has signed a Development Agreement but has not submitted costs for reimbursements of their projects. Estimated costs, based on agreements, are as follows:

65 La Porte, Ltd.	\$	7,103,500
-------------------	----	-----------

Under the agreements, the amount shown is not a payable debt if the tracts do not generate tax increment sufficient to pay the accrued amount.

INTERFUND ACTIVITY

The composition of interfund transfers for the year are as follows:

Transfers From	Transfers To					Totals
	General	Debt Service	Other Governmental	Utility	Internal Service	
General Fund	\$ -	\$ -	\$ 1,500,000	\$ 1,000,000	\$ 633,582	\$ 3,133,582

	Total transfers	\$ 4,547,476	

DEFINED BENEFIT PENSION PLAN – TEXAS MUNICIPAL RETIREMENT SYSTEM

Plan Descriptions

The City participates as one of 866 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agency multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS’s defined benefit pension plan is a tax-qualified plan under Sections 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.org.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee’s contributions, with interest, and the City-financed monetary credits, with interest, were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member’s deposits and interest.

The City has approved an annually repeating (automatic) basis a monetary credit referred to as an updated service credit (USC) which is a theoretical amount which takes into account salary increases or plan improvements. If at any time during their career an employee earns a USC, this amount remains in their account earning interest at 5% until retirement. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer match plus employer-financed monetary credits, such as USC, with interest were used to purchase an annuity. Additionally, City provides on an annually repeating (automatic) basis cost of living adjustments (COLA) for retirees equal to a percentage of the change in the consumer price index (CPI).

A summary of plan provisions for the City are as follows:

Employee deposit rate	7.0%
Matching ratio (City to employee)	2 to 1
Years required for vesting	10
Service retirement eligibility	20 years to any age, 10 years at age 60 and above
Updated service credit	100% repeating
Annuity increase to retirees	70% of CPI, repeating

Employees covered by benefit terms

At the December 31, 2015 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	182
Inactive employees entitled to but not yet receiving benefits	142
Active employees	<u>374</u>
	<u><u>698</u></u>

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are with 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contributions rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7.0% of their annual gross earnings during the fiscal year. The contribution rates for the City were 16.12% and 15.64% in calendar years 2015 and 2016, respectively. The City's contributions to TMRS for the year ended September 30, 2016, were \$3,551,472, and were equal to the required contributions.

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2015, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.0% per year
Investment rate of return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Health Mortality Tables with Blue Collar Adjustment are used with male rates multiplied by 109% and female rate multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who became disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

Actuarial assumptions used in the December 31, 2015 valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering the 2009 through 2011, and the dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation. After the Asset Allocation Study Analysis and experience investigation study, the Board amended the long-term expected rate of return on pensions plan investments from 7% to 6.75%. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of plant investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). At its meeting on July 30, 2015, the TMRS Board approved a new portfolio target allocation. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS. The target allocation and best estimates of arithmetic real rates return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	17.5%	4.55%
International Equity	17.5%	6.10%
Core Fixed Income	10.0%	1.00%
Non-Core Fixed Income	20.0%	3.65%
Real Return	10.0%	4.03%
Real Estate	10.0%	5.00%
Absolute Return	10.0%	4.00%
Private Equity	5.0%	8.00%
Total	100.0%	

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the Total Pension Liability.

Changes in the Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(a)	(b)	(a) - (b)
Balance at 12/31/2014	\$ 137,589,270	\$ 123,310,594	\$ 14,278,676
Changes for the year:			
Service cost	3,401,691	-	3,401,691
Interest	9,564,637	-	9,564,637
Difference between expected and actual experience	(500,190)	-	(500,190)
Changes of assumptions	(325,022)	-	(325,022)
Contributions - employer	-	3,461,463	(3,461,463)
Contributions - employee	-	1,506,158	(1,506,158)
Net investment income	-	181,954	(181,954)
Benefit payments, including refunds of employee contributions	(5,304,879)	(5,304,879)	-
Administrative expense	-	(110,827)	110,827
Other changes	-	(5,474)	5,474
Net changes	<u>6,836,237</u>	<u>(271,605)</u>	<u>7,107,842</u>
Balance at 12/31/2015	<u>\$ 144,425,507</u>	<u>\$ 123,038,989</u>	<u>\$ 21,386,518</u>

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) of 1-percentage-higher (7.75%) than the current rate:

	1% Decrease in Discount Rate (5.75%)	Discount Rate (6.75%)	1% Increase in Discount Rate (7.75%)
City's net pension liability	\$ 42,454,641	\$ 21,386,518	\$ 4,170,702

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. The report may be obtained on the Internet at www.tmr.org.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2016, the City recognized pension expense of \$4,599,527. At September 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ -	\$ 838,585
Changes in actuarial assumptions	-	256,307
Difference between projected and actual investment earnings	7,654,443	-
Contributions subsequent to the measurement date	2,584,205	-
Totals	<u>\$ 10,238,648</u>	<u>\$ 1,094,892</u>

\$2,584,205 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2017. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expenses as follows:

For the Year Ended September 30,	
2017	\$ 1,654,798
2018	1,654,798
2019	1,687,356
2020	1,562,599

DEFINED BENEFIT PENSION PLAN – TEXAS EMERGENCY SERVICES RETIREMENT SYSTEM**Plan Description**

The City participates in the Texas Emergency Services Retirement System (TESRS), a cost-sharing multiple-employer defined benefit pension established and administered by the State of Texas. The TESRS is an agency of the State of Texas and its financial records comply with state statutes and regulations. The nine members Board of Trustees, appointed by the Governor, establishes policy for the administration of the Texas Emergency Services Retirement System. TESRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tesrs.org.

The TESRS was created as a standalone agency by the 83rd Legislature via the passage of SB 220, effective September 1, 2013, to assume the related functions of the abolished Office of the Fire Fighters' Pension Commissioner. While the agency is new, the System has been in existence since 1977. TESRS, which is under the authority of Title 8, Subtitle H, Chapters 861-865 of the Texas Government Code, provides death and disability benefits to active volunteer fire fighters and first responders, and a pension to members with vested service, as well as to their survivor/beneficiaries.

Pension Plan Fiduciary Net Position

For financial reporting purposes, the State of Texas is considered the primary reporting government. TESRS' financial statements are included in the State's Comprehensive Annual Financial Report. TESRS issues a publicly available Annual Financial Report, which includes financial statements, notes, and required supplementary information, which can be obtained at www.tesrs.org.

Benefits Provided

Senate Bill 411, 65th Legislature, Regular Session (1977), created TESRS and established the applicable benefit provisions. The 79th Legislature, Regular Session (2005), re-codified the provisions and gave the TESRS Board of Trustees authority to establish vesting requirements, contribution levels, benefit formulas, and eligibility requirements by board rule. The benefit provisions include retirement benefits as well as death and disability benefits. Members are 50% vested after the tenth year of service, with the vesting percent increasing 10% for each of the next five years of service so that a member becomes 100% vested with 15 years of service.

Upon reaching age 55, each vested member may retire and receive a monthly pension equal to his vested percent multiplied by six times the City's average monthly contribution over the member's years of qualified service. For years of service in excess of 15 years, this monthly benefit is increased at the rate of 6.2% compounded annually. There is no provision for automatic postretirement benefit increases.

On and off-duty death benefits and on-duty disability benefits are dependent on whether or not the member was engaged in the performance of duties at the time of death or disability. Death benefits include a lump sum amount or continuing monthly payments to a member's surviving spouse and dependent children.

Contributions

Contributions are made by the City for the participating employees. No contributions are required from the individuals who are members of the TESRS, nor are they allowed. The City is required to make contributions for each month an employee of the plan this minimum contribution is \$36 per member. Contributions to the pension plan for the year ended September 30, 2016, were \$38,095.

Actuarial Assumptions

The total pension liability in the August 31, 2014, actuarial valuation was determined using the following actuarial assumptions:

Inflation	3.50%
Salary increases	None
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Healthy Lives Mortality Tables for males and for females projected to 2018 by scale AA.

The actuarial assumptions used in the August 31, 2014, valuation were based on the results of an actuarial experience study for the period completed in 2008.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future net real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These components are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (3.50%). In addition, the final 7.75% assumption reflected a reduction of 0.20% for adverse deviation. The target allocation and expected arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Portfolio Real Rate of Return
Equities:		
Large cap domestic	32.0%	5.2%
Small cap domestic	10.0%	5.8%
Developed international	21.0%	5.5%
Emerging markets	6.0%	5.4%
Master limited partnership	5.0%	7.1%
Fixed income:		
Domestic	21.0%	1.4%
International	5.0%	1.6%
Cash	0.0%	0.0%
Total	100.0%	

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. No projection of cash flows was used to determine the discount rate because the August 31, 2014 actuarial valuation showed that expected contributions would pay the normal cost and amortize the unfunded actuarial accrued liability (UAAL) in 30 years using the conservative level dollar amortization method. That UAAL was based on an actuarial value of assets that was \$7.9 million less than the plan fiduciary net position as of August 31, 2014. Because of the 30-year amortization period with the conservative amortization method and with a lower value of assets, the pension plan's fiduciary net position is expected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the City's proportionate share of the net pension liability, calculated using the discount rate of 7.75%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.75%) or 1 percentage point higher (8.75%) than the current rate:

	1% Decrease in Discount Rate (6.75%)	Discount Rate (7.75%)	1% Increase in Discount Rate (8.75%)
City's proportionate share of the net pension liability	\$ 458,634	\$ 262,121	\$ 148,880

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2016, the City reported a liability of \$262,121 for its proportionate share of the TESRS's net pension liability. The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2014, and rolled forward to August 31, 2015. The City's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to contributions of all participating employers to the plan for the period September 1, 2014 through August 31, 2015.

At August 31, 2015 the City's proportion of the collective net pension liability was 0.982% increased from 0.721% at August 31, 2014.

For the year ended September 30, 2016, the City recognized TESRS pension expense of \$10,053. At September 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual investment earnings	\$ -	\$ 48,148
Contributions paid to TESRS subsequent to the measurement date	38,095	-
Total	\$ 38,095	\$ 48,148

\$38,095 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2017. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the Year Ended September 30,	
2017	\$ 9,226
2018	9,226
2019	9,226
2020	20,469

RISK MANAGEMENT

The City is expected to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The City's risk management program encompasses various means of protecting the City against loss by obtaining property, casualty and liability coverage from participation in a risk pool. The participation of the City in the risk pool is limited to the payment of premiums. The City is a member of the Texas Municipal League Intergovernmental Risk Pool, an unincorporated association of 1,860 political subdivisions of the State of Texas. The Pool contracts with a third party administrator for administration, investigation and adjustment services in the handling of claims. All loss contingencies, including claims incurred but not reported, if any, are recorded and accounted for by the Pool. Settled claims have not exceeded insurance coverage in any of the three previous fiscal years. There has not been any significant reduction in insurance coverage from that of the previous year.

The insurance internal service fund is funded by charges to the City's other funds and component units, and is based primarily upon the contributing funds' full-time employee count. The City self-insures a portion of health insurance benefits provided to employees. For health insurance the City retains the risk for the first \$165,000 of an individual claim. Excess insurance coverage is purchased to cover individual claims in excess of \$165,000 with a limit of \$1,000,000 per coverage period.

Activities during the year for the insurance internal service fund included:

Revenues	
Charges to divisions	\$ 4,581,529
Interfund transfers	696,352
Charges to employees	419,791
Charges to retirees	98,395
Cobra charges	17,981
Other	20,258
Interest revenue	6,737
Total revenues	\$ <u>5,841,043</u>
Expenses	
Other expenses	\$ 71,547
Claims administration	219,109
Claims incurred	6,001,596
Re-insurance premiums	382,432
Insurance premiums	727,522
Total expenses	\$ <u>7,402,206</u>

Liabilities of the insurance fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as, inflation, changes in legal requirements and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-offs), and other economic and social factors. These estimate of the claims also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expense regardless of whether allocated to specific claims.

Changes in the balance of health insurance claims liability for three fiscal years are as follows:

	Beginning of Year Accrual	Claims	Payments for Claims	End of Year Accrual
9/30/2014	\$ 480,584	\$ 5,580,398	\$ 5,485,633	575,349
9/30/2015	575,349	4,762,880	4,898,536	439,693
9/30/2016	439,693	6,001,596	6,053,439	387,850

CONTINGENCIES

The City is a defendant in lawsuits. Although the outcome of the lawsuits is not presently determinable, it is the opinion of the City’s management the resolution of these matters will not have a materially adverse effect on the financial condition of the City.

The City participates in certain federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Accordingly, the City’s compliance with applicable grant requirements will be established at a future date. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the City anticipates such amounts, if any, will be immaterial.

SOUTHEAST WATER PURIFICATION PLANT

The LaPorte Area Water Authority (“Authority”) and the City of Houston, Texas have entered into a Cost Sharing Water Project Contract (the “Contract”) wherein the Authority, the Cities of La Porte, Morgan’s Point, and Shoreacres agree to jointly finance the construction and operation of the Southeast Water Purification Plant (Southeast Plant). Under the terms of the Contract, the Authority purchased 4.2 million gallons per day production and 5.25 million gallons per day pumping capacity. The Cities of La Porte, Morgan’s Point, and Shoreacres have agreed to demand and pumping allocations of the Authority’s purchase of water from the Southeast Plant.

The required funds for the undivided interest in the Southeast Plant and the construction of a transmission and distribution system to transport water from the Southeast Plant were provided by issuance of \$9.8 million revenues bonds.

The water rate to be set by the Authority will not be less than an amount sufficient to provide for payment of all expenses in producing, treating, and pumping the water in connection with transmission and distribution systems and to provide payment for the interest and principal of all bonds when the bonds become due and payable.

POST-EMPLOYMENT BENEFITS

Plan Description. In addition to pension benefits described in Note VI, employees who retire from the City and are eligible for pension benefits shall be provided medical coverage by the City to the extent and subject to the conditions of such coverage that is provided to current employees of the City. The City administers the single-employer defined benefit medical plan (“the Retiree Medical Plan”). The plan provides medical coverage for eligible retirees and their dependents through the City’s self-health insurance plan, which covers both active and retired members. Benefit provisions are established and amended by City Council. The Retiree Medical Plan does not issue a publicly available financial report.

Funding Policy. This coverage for retired employees is provided at the option of the City Council through adoption of the annual budget. The City funds these premiums in the same manner as it funds similar premiums for current employees. Employees, who retired from the City before October 1, 1992, have 100% of their coverage paid for by the City. Employees who retired from the City in 1993 and up to December 31, 1999, with 20 or more years of service have 100% of their coverage paid for by the City. Prior to January 1, 2000, employees who have 15 years but less than 20 years of service are required to pay for 10% of the cost and employees who have 10 years but less than 15 years of service are required to pay for 20% of their costs. For employees who retire after January 1, 2000, the following applies:

<u>Years of Service with the City</u>	<u>Retiree Cost</u>	<u>City Cost</u>	<u>Retiree Cost Per Year</u>
At least 10 but less than 15	55%	45%	\$ 3,500
At least 15 but less than 20	25%	75%	1,500
At least 20	0%	100%	-

Employees who are eligible for the post-employment benefits are employees who retire after January 1, 2006 and who have a combination of years of service with the City of La Porte plus age totaling 80 and who retire as a qualified annuitant under the Texas Municipal Retirement System; who retire in accordance with the City of La Porte Employee Policies Handbook; who complete at least 20 years of service with the City of La Porte are currently employed by the City of La Porte at the time of the retirement. The total premium cost is the total annual dollar allocated by budget as approved by City employer contributions. The cost allocation shall be as follows:

Years of Service with the City	Retiree Cost	City Cost
at least 20 years	60%+dependent premiums	40%
21 years	55%+dependent premiums	45%
22 years	50%+dependent premiums	50%
23 years	45%+dependent premiums	55%
24 years	40%+dependent premiums	60%
25 years	35%+dependent premiums	65%
26 years	30%+dependent premiums	70%
27 years	25%+dependent premiums	75%
28 years	20%+dependent premiums	80%
29 years	15%+dependent premiums	85%
30 years	Active employee/dependent rate	

Retirees who are entitled to receive retirement benefits under the City's retirement plan may purchase continued health benefits for the retiree and the retiree's dependents. The Person must inform the City no later than the day on which the person retires that the person elects to continue coverage. If the retiree elects to continue coverage for himself and/or his dependents, once he decides to drop either type of coverage, the person and/or his dependents become eligible for coverage at the next open enrollment period. The level of coverage proceed is the same level of coverage provided to current employees. The City's coverage is secondary to Medicare when the person becomes eligible for those benefits. Payment for dependent coverage will be at the same rate as payments for current employees.

Annual OPEB Costs and Net OPEB Obligation. The City’s annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that is paid on an ongoing basis, is projected to cover normal cost each year and amortize an unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City’s OPEB obligation to the postemployment medical plan shows the components of the City’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City’s OPEB obligation to the postemployment medical plan.

	Fiscal Year		
	2016	2015	2014
Annual required contribution (ARC)	\$ 2,449,101	\$ 2,377,768	\$ 2,566,570
Interest on OPEB obligation	531,178	460,579	383,426
Adjustment to ARC	(492,130)	(426,722)	(355,240)
Annual OPEB cost	2,488,149	2,411,625	2,594,756
Contributions	(625,941)	(842,765)	(880,236)
Increase in net OPEB obligation	1,862,208	1,568,860	1,714,520
Net OPEB obligation, beginning of year	11,803,947	10,235,087	8,520,567
Net OPEB obligation, end of year	<u>\$ 13,666,155</u>	<u>\$ 11,803,947</u>	<u>\$ 10,235,087</u>

The City’s annual OPEB cost, employer contributions, and the percentage of annual OPEB cost contributed to the plan for fiscal years 2016, 2015, and 2014 are as follows:

Fiscal Year Ended	Annual OPEB Cost	Employer Amount Contributed	Percentage Contributed	Net OPEB Obligation
9/30/2014	\$ 2,594,756	\$ 880,236	33.9%	\$ 10,235,087
9/30/2015	2,411,625	842,765	34.9%	11,803,947
9/30/2016	2,488,149	625,941	25.2%	13,666,155

Funded Status and Funding Progress. The funding status of the post-employment medical plan as of the most recent actuarial valuation date is as follows:

Schedule of Funding Progress						
Actuarial Valuation Date December 31,	Actuarial Value of Assets	Actuarial Accrued Liabilities	Unfunded Actuarial Accrued Liability (UAAL)	Percentage Funded	Annual Covered Payroll	Ratio of UAAL to Annual Covered Payroll
2014	\$ -	\$ 30,887,738	\$ 30,887,738	-	\$ 20,708,593	149.2%

Actuarial valuations of an ongoing plan involve estimates of the value reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. A schedule of funding progress presents multi-trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. The 2014 actuarial valuation is the most recent actuarial valuation available.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. In the December 31, 2014, actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.5 percent investment rate of return compounded annually (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, an annual healthcare cost trend rate of 7.25 percent initially, reduced by decrements to an ultimate rate of 4.5 percent after 14 years, and a payroll growth rate for projecting normal cost of 3 percent. These rates include a 3 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term validity in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of payroll contributions over a 30 year open amortization period assuming payroll growth of 3 percent. The remaining amortization period at September 30, 2016, was 28 years.

Supplemental Death Benefits Fund

The City also participates in the cost sharing multiple-employer defined benefit group term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Funds (SDBF). The City elected, by ordinance to provide group term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1. The death benefit for active employees provides a lump sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB. The City contributes to SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employee's entire careers.

The City's contributions to the TMRS SDBF for the fiscal year ended 2016, 2015, and 2014 were \$35,433, \$33,526, and \$30,814, respectively, which equaled to the required contributions.

FUND BALANCE

Assigned fund balance of the General Fund at year-end consisted of the following:

Appraisal Services	\$ 4,800
Software	68,144
Firearms/Ammunition	12,042
GIS Web Hosting	500
Hardware	8,486
GIS Technical Services	22,342
Professional Engineering Services	4,344
Consulting Services for Community Rating System	14,500
Body Worn Camera Systems	38,978
Department Audit Organizational Review	5,432

Surveillance Systems	3,237
Green Cloud Money Fee	8,650
APC Meter Rock - Power Distribution	1,296
Lift Inspection and Repairs	898
A/C and Heating Repairs to PD Building	<u>3,500</u>
 Total General Fund Assigned Fund Balance	 \$ <u>204,149</u>

NEW ACCOUNTING PRINCIPLES

Significant new accounting standards not yet implemented by the City include the following.

Statement No. 75, “*Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*” – This statement changes the focus of accounting of postemployment benefits other than pensions from whether an entity is responsible for funding the benefits over time to a point-in-time liability that is reflected on the employer’s financial statements for any actuarially unfunded portion of benefits earned to date. This statement will become effective for the City in fiscal year 2018.

Statement No. 77, “*Tax Abatement Disclosures*” – This statement requires governments that enter into tax abatement agreements to provide certain disclosures regarding these commitments. This statement will become effective for the City in fiscal year 2017.

CITY OF LA PORTE, TEXAS

NOTES TO REQUIRED BUDGETARY INFORMATION

SEPTEMBER 30, 2016

Budgetary Controls and Procedures

The objective of the City's budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. The City Manager is required by charter to submit a proposed budget and accompanying message to City Council by August 1. The Council shall review and revise the proposed budget as they deem appropriate prior to circulation for the public hearing. A summary of the proposed budget and notice of the public hearing must be posted in City Hall and be published in the official newspaper at least 2 weeks prior to the hearing. Annual budgets for General, Debt Service, Special Revenue and Enterprise Funds are legally adopted by ordinance and must be done so no later than September 27th. Budgetary control for capital projects funds is achieved through legally binding construction contracts and project length budgets.

The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is the total approved budget for each department. The City Manager is authorized to transfer part of all of any unencumbered appropriation balance among programs within a department. All other amendments and/or transfers must be approved by Council.

Annual appropriated budgets are adopted for general, special revenue, and debt service funds, using the same basis of accounting as for financial reporting. Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) except the capital projects funds, which adopt as a whole. The original budget is adopted by the City Council prior to the beginning of the year. The legal level of control as defined by the charter is the total approved budget for each department. The City Manager may transfer appropriations within a department without seeking the approval of City Council; however, any revisions that alter total expenditures for any department must be approved by City Council. Appropriations lapse at the end of the year, excluding capital project budgets.

CITY OF LA PORTE, TEXAS

SCHEDULE OF CHANGES IN TMRS NET PENSION LIABILITY
AND RELATED RATIOS

FOR THE YEAR ENDED SEPTEMBER 30, 2016

Plan Year	<u>2014</u>	<u>2015</u>
A. Total pension liability		
Service Cost	\$ 3,045,776	\$ 3,401,691

SCHEDULE OF TMRS CONTRIBUTIONS

FOR THE YEAR ENDED SEPTEMBER 30, 2016

Fiscal Year	<u>2014</u>	<u>2015</u>	<u>2016</u>
Actuarial determined contribution	\$ 3,496,424	\$ 3,489,185	\$ 3,551,472
Contributions in relation to the actuarially determined contribution	<u>(3,496,424)</u>	<u>(3,489,185)</u>	<u>(3,551,472)</u>
Contribution deficiency (excess)	-	-	-
Covered employee payroll	20,543,616	21,323,383	21,421,227
Contributions as a percentage of covered employee payroll	17.02%	16.36%	16.58%

Note: This schedule is required to have 10 years of information, but the information prior to 2014 is not available.

NOTES TO SCHEDULE OF CONTRIBUTIONS

Valuation Date: Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	18 years
Asset Valuation Method	10 Year smoothed market; 15% soft corridor
Inflation	2.50%
Salary Increases	3.50% to 10.50% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2015 valuation pursuant to an experience study of the period 2010-2014.
Mortality	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis of with scale BB.
Other Information	There were no benefit changes during the year.

DRAFT

**COMBINING AND INDIVIDUAL
STATEMENTS AND SCHEDULES**

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Hotel/Motel Occupancy Tax Fund—This fund is used to account for the accumulation of resources from the Hotel/Motel Tax assessment levied by the City. These monies are to be spent to promote the development or progress of the City within the guidelines set forth on disposition of revenues collected under the authority of the Texas Hotel Occupancy Act (Article 1369; Vernon's Texas Civil Statutes).

Section 4B Sales Tax Fund – This fund is used to account for funds received from the ½ cent sales tax dedicated to certain economic and infrastructure projects.

Tax Increment Reinvestment Zone One Fund (TIRZ) – This fund is used to account for the disposition of property taxes collected on specific parcels within the boundaries of the TIRZ for the exclusive benefit to pay developers for capital improvements.

Street Maintenance Sales Tax Fund – This fund is used to account for the additional sales tax collected for street maintenance.

Emergency Services Sales Tax Fund – This fund is used to account for the additional sales tax collected for emergency services.

Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

Restricted Funds – This fund is used to account for funds received from another government or organization to be used for the specific purpose activity or facility.

2006 Certificate of Obligation Bonds Fund – This fund is used to account for the proceeds and expenditures related to the Police Facility, a Sports Complex (Joint Venture), South La Porte Trunk Sewer and various other Water/Sewer projects.

2010 Certificates of Obligation Bond Fund – This fund is used to account for the proceeds and expenditures related to street, drainage and park improvements.

2015 Certificate of Obligation Bonds Fund – This fund is used to account for bond proceeds and the expenditure of those funds for water and sewer improvements, and street and drainage improvements.

Capital Improvements – This fund is used to account for projects that are generally small in nature and affect the general operation of the City.

Drainage Improvements – This fund is used to account for the proceeds and expenditures related to the drainage fees collected.
