vs. Ebony Brian Scott, Et Al; Account # 0232040800009

Dear Mr. Alexander:

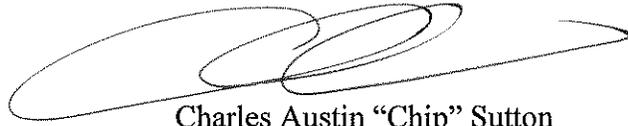

A private tax resale bid in the amount of \$16,450.00 has been received from BP Coastal Builders & Developers, LLC for a property that is owned in trust by the City of La Porte, La Porte ISD, Harris County and San Jacinto Community College District pursuant to a constable's tax sale. I have attached to this letter the tax resale bid, a tax resale bid analysis, a tax resale resolution for the City, a proposed tax resale deed, and a Harris County Appraisal District map of the subject property. The amount of the tax resale bid is sufficient to allow the City of La Porte to consider acceptance of this bid and conveyance of the subject property by the City, La Porte ISD, Harris County and San Jacinto Community College District.

Therefore, I would respectfully request that this tax resale bid be placed on an upcoming agenda of the City Council of the City of La Porte. I am available to attend the Council Meeting in order to address any questions that arise. A suggested wording of the agenda item is as follows:

Consider approval of a bid by BP Coastal Builders & Developers, LLC to acquire a tax resale property described as: Tract 1: Lots Nine (9) and Ten (10), in Block Eighty (80), of the Town of La Porte, As Per the Official and Recorded Plat or Map of said Town of La Porte, now on file in the Office of the County Clerk of Harris County, Texas, together with any and all improvements thereon. SUMMARY & RECOMMENDATION

Valvoline has approached the City asking for the City to designate their new project off of S. 16th in Port Crossing as a half enterprise project with the State.

The Texas Enterprise Zone Program is a program in which the State remits some of their portion of sales and use tax back to a business in exchange for capital investment and job creation. The City pays or relinquishes nothing for a business to be a part of the program. Valvoline's capital investment will be \$6,000,000 and create 50 new job. Of these 50 jobs, 10 will be "for benefit" and count towards the Enterprise Zone program. To be counted "for benefit" the job must average weekly wage which meets or exceeds the average county weekly wage in the county in which the qualified business site is located.

Cities of our size get six nominations per biennium; as we have not used one of our nominations since 2013 with Equistar Chemicals, this would leave us with five and a half nominations to use by August 31, 2019.

Action Required by Council:

Consider approval or other action regarding a resolution designating Valvoline as a half enterprise project.

RE: Valvoline LLC Texas Enterprise Project Application
Tab 12 – Project Description Letter

On behalf of Valvoline LLC, I am pleased to provide the following Project Description in support of our Enterprise Project Application, specifically Section XVI.

Valvoline LLC (the “Company”) is a subsidiary of Valvoline Inc. (“Valvoline”), a leading worldwide marketer and supplier of premium branded lubricants and automotive services, with sales in more than 140 countries. Valvoline is headquartered in Lexington, Kentucky and reported net annual sales of \$181 million in 2017. Established in 1866, Valvoline’s heritage spans over 150 years, during which it has developed powerful brand recognition across multiple product and service channels.

The highly trusted brand ranks as the No. 3 passenger car motor oil brand in the DIY market by volume, the No. 2 quick-lube chain by number of stores in the United States and the No. 3 quick-lube chain by number of stores in Canada. Valvoline operates and franchises more than 1,140 Valvoline Instant Oil Change centers in the United States and more the 70 Great Canadian Oil Change locations in Canada.

It also markets Valvoline lubricants and automotive chemicals, including the new Valvoline Modern Engine Full Synthetic Motor Oil, which is specifically engineered to protect against carbon build-up in Gasoline Direct Injection, turbo and other engines manufactured since 2012. Valvoline manufactures a variety of other oils and antifreeze, as well.

The Company is planning to invest in a distribution facility in La Porte, Texas located in Building B2 of the Port Crossing Commerce Center at 1302 Wharton Weems Boulevard. The facility will be involved in the distribution of packaged lubricant products to both domestic and international destinations, serving the Southwest United States, Latin America, and Chinese markets. The Company has existing operations in 13 Texas locations and employs 307 in the state (a list of which you can find under Section

XIII of this application). There are no employees currently located at the La Porte site. The project's total capital investment in the new facility will be in excess of \$6,000,000, including approximately \$3,400,000 in November and December of 2018, and \$2,600,000 in 2019. The investment in the La Porte distribution center is expected to include racking, fire suppression sprinkler equipment, a chemical room storage building, dock levelers and equipment, RF equipment, wrappers, scales, and other various warehouse and office equipment and building finish-out. The Company will maintain separate payroll and tax records relating to the business activity conducted at the qualified business site. The Company does not have any transportation needs not currently met through existing infrastructure. Valvoline LLC will be the payroll entity that will hire and pay employees. The building lease will be in the name of Valvoline LLC. Additionally, Valvoline LLC will be registered for sales tax and may pay sales and use taxes on purchases made for the qualified site.

The project will create 50 new full-time jobs in total, with ten of the jobs being listed as "for benefit" in the Texas Enterprise Zone application. The ten new full-time jobs being listed as "for benefit" will create a total annual payroll of \$703,000. The new jobs will comprise of an operations manager, two production supervisors, an ICC senior, three team leads, and three material handlers.

A designation as an Enterprise Project and potential tax savings are very important to Valvoline and the City of La Porte. Valvoline is committed to the State of Texas and the City of La Porte, and the incentive provided through the Enterprise Project designation will assist in offsetting the additional overhead and real estate costs associated with this La Porte location.

We appreciate your consideration of Valvoline LLC as an Enterprise Project. Please let me know if you have any questions or need additional information.

Sincerely,

Elizabeth Russell
Tax Counsel
Valvoline Inc.

SUMMARY & RECOMMENDATION

Representative Edward Thompson of Brazoria has filed a bill that provides equity for collection of sales tax by the State of Texas. The current scheme is that 2% of sales tax collections are retained by the State for administration of the State Comptroller of Public Accounts agency. The State Comptroller does a great job collecting and providing a wide variety of services, but the 2% across the great State of Texas amounts to nearly \$188 million per year to the State, far in excess of the cost of providing those services. Local government finance and Microsoft Excel guru Lewis McLain has been highlighting the topic at <https://citybaseblog.net/2018/09/30/a-huge-local-government-expense-not-being-disclosed/>

This bill would reduce the fee the State Comptroller charges local governments for sales tax collection. The reduction of 1% would mean that well over \$93 million more would go back to local governments, of which La Porte would receive over \$121,000 annually in additional sales tax collections.

In 2018, the State Comptroller had a budget of \$356.7 million, which was used to perform a multitude of services by collecting fees from 425 types of revenue sources. The two largest revenue collections come from federal government payments and sales tax. Though there is no direct correlation with the \$356.7 million collected and the work involved, it can be said that there is a general correlation. Why does an appraisal district offer to do your property tax billing as such a reasonable cost? Because they are sending out bills for the one or more entities anyway. Similarly, if the State Comptroller is already collecting the State's portion of sales tax (6.25%), then how much additional work is there to collect the local government's portion (up to 2%)? As mentioned earlier, the State Comptroller's entire budget is \$356.7 million and the amount they are collecting from local entities is \$182 million, which means that local entities are funding 51% of the State Comptroller's budget. This has caused local entities and legislators such as Representative Thompson to question just how much time and effort is really spent by the State Comptroller for collecting (including the field audits, etc.) sales tax in total? At least a reduction of 1% charge to local entities for collecting their sales tax is a reasonable request.

Attached is a resolution supporting this legislation. If adopted, this resolution will be sent to all elected officials representing the City of La Porte.

Action Required by Council:

Consider approval or other action of Resolution 2019-01 supporting H. B. 1192 which decreases the administrative fee for collection of sales tax from 2% to 1% for the City of La Porte and the La Porte Fire Control District.

A BILL TO BE ENTITLED

AN ACT

1
2 relating to the amount deducted from certain distributions of local
3 tax revenue as the state's share.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

5 SECTION 1. Section 403.107, Government Code, is reenacted
6 and amended to read as follows:

7 Sec. 403.107. LOCAL SALES AND USE TAX FEES. (a) The
8 comptroller shall deposit fees imposed under Section 151.059, Tax
9 Code, in the state treasury and shall keep records of the amount of
10 money collected for each reporting period. Such fees shall be held
11 in trust in the suspense account of each eligible taxing unit. The
12 comptroller shall distribute money in the suspense accounts under
13 this section to each eligible taxing unit in the amount and manner
14 provided by federal law or this section.

18 sales and use tax governed in part by any provision of those
19 chapters.

20 (c) The comptroller shall transmit to each eligible taxing
21 unit's treasurer, or to the officer performing the functions of
22 that office, on a quarterly basis, the taxing unit's share of the
23 fees remitted to the comptroller, together with the pro rata share
24 of any penalty or interest on delinquent fees that may be collected.

1 Before transmitting the funds, the comptroller shall deduct one
2 [~~two~~] percent of the amount allocated to each taxing unit as a
3 charge by the state for its services under this section and deposit
4 that amount into the state treasury to the credit of the
5 comptroller's operating fund. Interest earned on all deposits made
6 in the state treasury under this section shall be credited to the
7 general revenue fund.

8 (d) The comptroller shall retain in the suspense account for
9 a taxing unit a portion of the taxing unit's share of the fees
10 collected, not to exceed five percent of the amount remitted to the
11 taxing unit. From the amounts retained in a taxing unit's suspense
12 account, the comptroller may make refunds for overpayments to the
13 account and to redeem dishonored checks and drafts deposited to the
14 credit of the account.

15 (e) Unless another method is required by federal law, the
16 comptroller shall compute for each calendar quarter the percentage
17 of total sales and use tax allocations made pursuant to Title 3 of
18 the Tax Code, including any local sales and use taxes governed by
19 any provision of Title 3 of the Tax Code, to each eligible taxing
20 unit and shall apply that percentage to the total fees collected
21 under Section [151.059](#), Tax Code, and allocated to eligible taxing
22 units in that quarter.

23 (f) The comptroller may combine an eligible taxing unit's
24 share of the fees remitted or collected under Section [151.059](#), Tax
25 Code, a suspense account under this section, or an allocation made
26 under this section with other trust or suspense accounts held for
27 that taxing unit or other allocations made to that taxing unit under

1 Title 3 of the Tax Code.

2 SECTION 2. Section 321.503, Tax Code, is amended to read as
3 follows:

4 Sec. 321.503. STATE'S SHARE. Before sending any money to a
5 municipality under this subchapter the comptroller shall deduct one
6 [~~two~~] percent of the amount of the taxes collected within the
7 municipality during the period for which a distribution is made as
8 the state's charge for its services under this chapter and shall[~~7~~
9 ~~subject to premiums payments under Section 321.501(c),~~] credit the
10 money deducted to the general revenue fund.

11 SECTION 3. Section 322.303, Tax Code, is amended to read as
12 follows:

13 Sec. 322.303. STATE'S SHARE. Before sending any money to a
14 taxing entity under this subchapter, the comptroller shall deduct
15 one [~~two~~] percent of the amount of the taxes collected within the
16 entity area during the period for which a distribution is made as
17 the state's charge for its services under this chapter and shall
18 credit the money deducted to the general revenue fund.

SUMMARY & RECOMMENDATION

Currently, the City of La Porte utility bill has an option for customers to voluntarily contribute \$1, \$2 or any other amount for “beautification and trail system projects” in La Porte. The City implemented this voluntary contribution option in 2004 and has accumulated \$5,700.46 in contributions since inception.

There have been discussions amongst the Councilmembers in the past to change the voluntary contribution option designation from beautification and trail system projects to animal control services. Our utility billing contracted vendor, Dataprose has indicated to the City that there would be no charge to make this change on the utility bills.

Action Required by Council:

Discuss, consider, and possibly act to change the voluntary contribution option on the monthly utility bill to be used for animal control services instead of beautification and trail system projects.

Subject: Racial Profiling Report for the La Porte Police Department

Honorable Council Members:

The following report is provided in accordance with Article 2.132 of the Texas Code of Criminal Procedures. The Code requires that the police department annually report, to its governing body, data collected on the race or ethnicity of individuals contacted on all motor vehicle stops, regardless of the enforcement action taken. Reporting must take place on or before March 1st of each year.

The following report meets this requirement by providing a detailed analysis of the La Porte Police Department's policies, training, and statistical information on racial profiling for the year 2018. To assist City Council in their examination of the included data, detailed demographic data has also been provided relating to the City of La Porte, Harris County, and the State of Texas. For the purposes of this report and analysis, the following definition of racial profiling is used: *racial profiling means a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity (Texas CCP Article 3.05).*

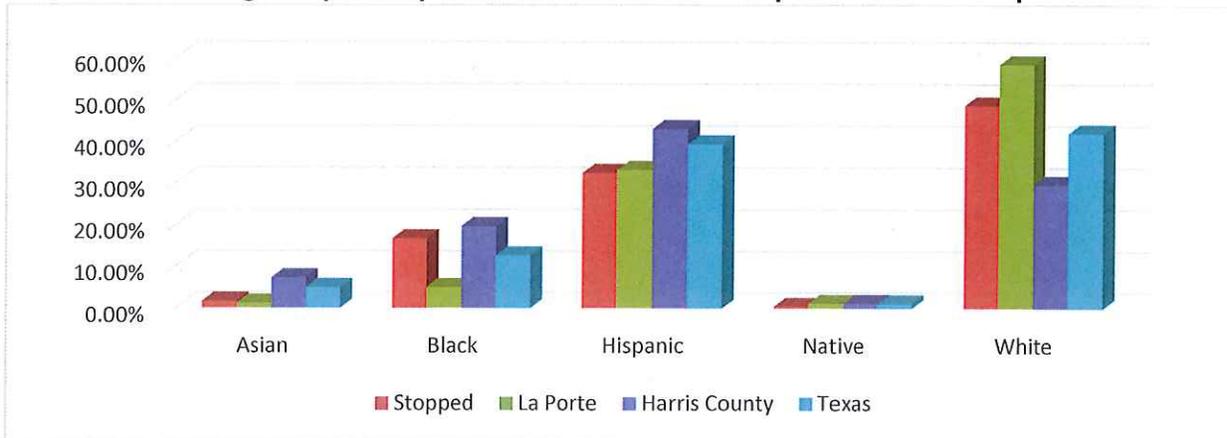

La Porte Police Department Policy/ Training on Racial Profiling

A review of La Porte Police Department Policy 314 and 401.2.6 provide evidence that the department has adopted policies in compliance with Article 2.132 of the Texas Code of Criminal Procedure. There are several specific requirements mandated by Article 2.132 that a law enforcement agency's Racial Profiling Policy must address. Each of these requirements are covered in the La Porte Police Department's Racial Profiling Policy, which provides clear direction that any form of racial profiling is prohibited and that officers found engaging in inappropriate profiling may be disciplined up to and including termination. The regulations also provide a very clear statement of the agency's philosophy regarding equal treatment of all persons regardless of race or ethnicity. All members of the La Porte Police Department have received formal training required by the State of Texas relating to Racial Profiling and have been provided, and signed for copies of the departmental policy in question. Additionally, the policy is required to be reviewed with all employees by supervisors on a bi-annual basis.

La Porte Police Department Statistical Data on Racial Profiling

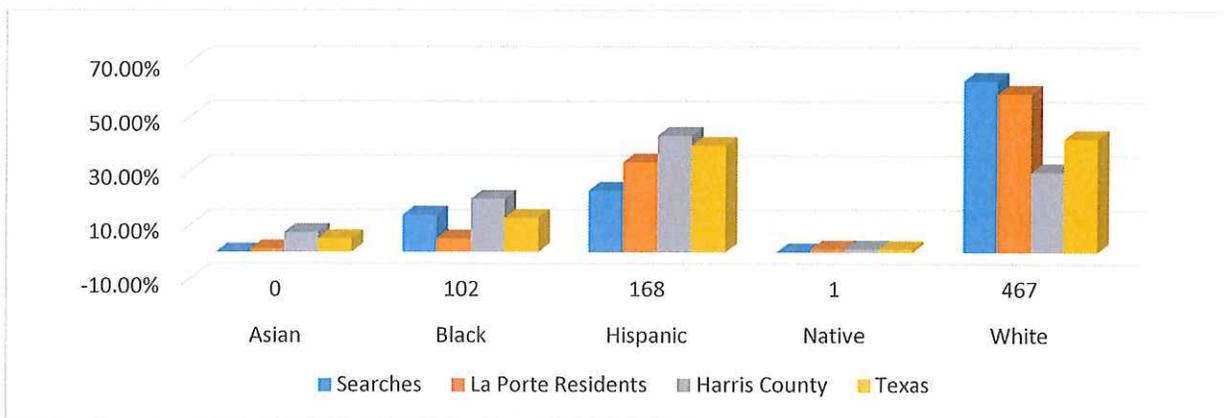

In accordance with Departmental Policy, Officers of La Porte Police Department submitted statistical information on all motor vehicle stops in 2018 and accompanying information on the race of the person contacted. This data has been aggregated and is presented in the following tables, accompanied by relevant information on searches, arrests, and demographic information.

Percentage Stops Compared with Overall Race Representation in Population

Race	LPPD Searches	La Porte PD Percent Searched by Race	La Porte Population Representation	Harris County Population Representation	Texas Population Representation
Asian	0	0.00%	1.20%	7.30%	5.00%

LPPD Arrests Compared with Overall Race Representation in Population

Race	LPPD Arrests	La Porte PD Percent Arrested by Race	La Porte Population Representation	Harris County Population Representation	Texas Population Representation
Asian	0.14%	1.20%	7.30%	5.00%	5.80%
Black	15.11%	5.00%	19.70%	12.70%	13.40%
Hispanic	29.24%	33.20%	43.00%	39.40%	18.10%
Native	0.28%	1.20%	1.20%	1.10%	1.50%
White	55.23%	58.50%	29.70%	42.00%	60.70%
Total	100.00%	99.10%	100.90%	100.20%	99.50%

The above statistics seem to indicate that black drivers were contacted, searched, and arrested incident to motor vehicle stops at a rate higher than the percentage of their respective residency within the City of La Porte, but at a lower rate than the percentage of their respective residency within the greater Harris County Region. As such, while noticeable, easy determinations regarding whether or not La Porte officers have “racially profiled” a given motorist are difficult given the fact that many drivers stopped by police officers are not residents of La Porte and may be traveling within or through the City from other areas of the county/state/country. As detailed above, these areas are much more highly represented by minority populations and may therefore account for larger percentages of non-resident motor vehicle operators, making comparisons relating strictly to La Porte area populations impractical.

In the interest of being thorough, the police department made a statistical analysis of the data in order to determine actual motor vehicle stops of La Porte residents, along with respect to percentages by driver’s race. Findings revealed, that overall, approximately 20% of all motor vehicle stops conducted by LPPD involved La Porte residents. This equates, approximately, to only one of every five motor vehicle stops conducted, involved local residents. Otherwise stated, 80% of all motor vehicle stops made by La Porte Police Officers involved drivers who do not live in the City of La Porte. Furthermore, when broken down by driver race, the majority of stops were overwhelmingly white drivers (69%). The remaining breakdown by race, regarding La Porte

residents stopped by La Porte Police Officers in 2018, were as follows: Hispanic – 17% black - 13%; Asian - 0.75%; Native American – 0.19%.

Additionally, the absence of any verifiable race/ethnicity data on the driver's license is troubling given the possibility that officers may misclassify individuals. This is a particular problem when dealing with citizens who are of mixed racial decent. As such, the validity of any racial/ethnic disparities discovered in the aggregate level data becomes threatened in direct proportion to the number of subjective "guesses" officers are forced to make when trying to determine an individual's racial/ethnic background. This may account for why Hispanic drivers are represented at a rate far lower than local, county, and state population projections, while Caucasian and Black drivers are more highly represented. In other words, officers may, for example, be listing mixed race drivers as being Caucasian or Black, when these individuals may, for census purposes, have identified themselves as Hispanic.

Finally, it is important to note that the included census data represents U.S. Census population figure estimates according to Demographic Profile Data of General Population and Housing Characteristics representing all age groups, yet does not take into account a specific combination of age and race regarding the percentage of the drivers who were actually stopped. Additionally, while population figure estimates are represented here, updates of the actual demographic statistics for the year 2018 are not yet available.

Still, the La Porte Police Department is committed to providing public safety without bias of any type and will continue to closely track, monitor, and regulate employee activities in order to ensure that biased-based policing does not occur. A review of internal administrative records indicated that during 2018 the department received no motor vehicle stop complaints that could be categorized as involving some type of racial profiling allegation.

In summary, the foregoing analysis shows that the La Porte Police Department is fully in compliance with all relevant Texas laws concerning racial profiling, including the existence of a formal policy prohibiting racial profiling by its officers, officer training, and the collection of data in compliance with the law. As a result of this analysis, and the listed statistics, it is my belief that the officers of the La Porte Police Department are operating appropriately and without bias relating to individual violator race, ethnicity, or national origin.
